

## ACKNOWLEDGEMENTS

I would like to express my deepest sense of gratitude towards **Dr. Nilesh P. Bhatt**, Sr. Lecturer in Geology for his constant encouragement and proficient guidance at all stages in carrying out this work. Especially, his able guidance in the field has helped me in improving my observations on geological outcrops. This work would have not been possible without his affectionate guidance

Prof. M.P.Patel, Ex-Head and Prof. P.P.Patel, current Head of the Geology Department, The M.S. University of Baroda are gratefully acknowledged for all the support and facilities made available during the course of investigation.

Valuable guidance and encouragement provided by Prof. L.S.Chamyal, Prof. Nikhil Desai and Dr. K.C.Tiwari at various stages is thankfully acknowledged here.

Dr. Shailesh Nayak, Head of the Remote Sensing Application Division, Space Application Centre (SAC), Ahmedabad is thankfully acknowledged for extending the remote sensing laboratory facility to process the digital satellite data used in the current investigation. I further thank Mr. Benidhar Deshmukh, Research Fellow at SAC for helping me in the process

I sincerely thank my seniors Dr. Parag Sohom of our department and Dr. Aniruddha S Khadkikar (At Agharkar Research Institute, Pune) for their support and guidance during the course of investigation.

I extend my hearty thanks towards Sumit, Rajpal, Sunit and Dr. Bhawanisingh G. Desai for their help and suggestions at various stages

I gratefully appreciate the help and support from Mr. Chandrakant Mistry, Mr. Mukesh Parmar, Mr. Kenneth Christian and other non-teaching staff members of the department.

The present study was carried out while working in research project funded by Department of Science and Technology, New Delhi (ESS/23/VES/019/98). Financial support provided from that is thankfully acknowledged here.

At last, I would like to mention about the inspiration, moral support and constant encouragement provided by my parents and other family members without which this work would have not reached at this stage.

**Uday A. Bhonde**
