

ACKNOWLEDGEMENTS

I take this opportunity to express my deepest sense of gratitude and sincere thanks to my guide Prof. L. S. Chamyal. I am grateful to Prof. M.P. Patel and Prof. P.P. Patel for providing departmental facilities, support and encouragement.

I would like to sincerely thank Dr. D. M. Maurya, for his invaluable help, support, encouragement and stimulating discussions at all the stages of this work. I would also like to thank Dr. S. I. Vaid and Dr. S. J. Patel for their help and support in many ways.

I express my deep sense of gratitude to Prof. A. K. Singhvi and Sri Navin Juyal (PRL, Ahmedabad) for their help in carrying out thermoluminescence dating and for providing constant support and encouragement. My grateful thanks are due to Dr (Mrs) Vandana Prasad (BSIP Lucknow) and Sri Raju Grover (O.N.G.C., Vadodara) for providing help in identifying the pollens, spores and dinoflagellates. I will also like to express my thanks to Dr. O. S. Chauhan (NIO) for his help in the XRD analysis and Shri R. J. Shah (SSNL) for providing the discharge data of Narmada River.

I would like to express my sincere thanks to Dr. Rachna Raj for her help, support and encouragement.

I would be failing in my duty if I do not thank my friends and colleagues Shri Naresh Mulchandani, Dr. Bhawanisingh Desai, Shri Vasudev Issrani and Shri Kishore Raghubans for their help all throughout my research work. Shri Sanjay Makwana is sincerely thanked for providing help in the field.

I would also like to place on record the encouragement, support and affection bestowed on me by my parents and all the family members who patiently endured my absence and encouraged me to complete this thesis.

The financial assistance for carrying out this research was mainly made available through a DST Project (No. ESS/23/VES/008/98) and CSIR Senior Research Fellowship (9/114(144)/2K3-EMR-I).

(Subhash Bhandari)
