

CONTENTS

	Page No.
1. INTRODUCTION	1-9
• Aim and scope of the present work	2
• Preface to study area	3
• Physiography and drainage	5
• Review of previous work	6
2. GEOLOGY AND STRUCTURE	10-18
• Geology	10
• Structure and tectonics	12
• Narmada –Son Fault	14
3. GEOMORPHOLOGY	19-33
• Fluvial System of lower Narmada basin	19
• Geomorphic Units	21
Trappean Upland Zone	23
Alluvial Zone	30
Estuarine Zone	32
4. STRATIGRAPHY	34-55
• Late Pleistocene Stratigraphy	34
• Early Holocene Stratigraphy	43
• Mid-Late Holocene Stratigraphy	51
• Stratigraphy	54
5. SEDIMENTARY FACIES AND CHARACTERISTICS	56-78
• Late Pleistocene Sediments	56
• Early Holocene Fan Sediments	71
• Mid-Late Holocene Terrace Sediments	77
6. NEOTECTONICS	79-95
• Geomorphic Evidence	79
Qualitative geomorphic analyses	80
• Stratigraphic Evidence	89
7. PALAEOENVIRONMENTAL STUDIES	96-106
• Clay Mineralogy	97
• Palaeohydrology	98
• Palynology	102
8. DISCUSSION	107-120
9. CONCLUSIONS	121-124
REFERENCES	125-141
LIST OF PUBLICATIONS	142
