

A C K N O W L E D G E M E N T

The author wishes to express his gratefulness to Dr.S.S.Merh FNA, FASc, FNASc, Professor of Geology (Retd.) and currently INSA Senior Scientist in the Department, for suggesting the problem and providing him guidance all throughout the research work. But for his constant encouragement and sustained interest, this work would not have been successfully completed.

The author is greatly indebted to Shri. J.V.Bhatt geologist in the Directorate of Geology & Mining, Gujarat State for his all round help and for providing valuable information on various laterite occurrences, from which the author was considerably benefitted.

Grateful thanks of the author are also due to Professor N.M. Vashi and Prof. D.R. Gadekar, the two respective heads of the Department, for providing necessary facilities and for encouraging the author. Help is gratefully acknowledged from Prof. Y.K. Agrawal and Dr. Shobhana Menon of the Pharmacy Dept. of M.S. University, and Dr.V.C. Thakur, Director of the WIHG, Dehra Dun, who were kind enough to assist the author in getting his samples analysed.

The author shall be failing in his duty, if he does not mention his gratitude to Dr. S.P.H. Sychanthavong for the keen interest he took in this work. His critical and stimulating

discussions were very useful to the author in building up his concepts.

Author would also like to thank all his research colleagues and staff members, especially Dr.L.S. Chamyal, Dr.K.C. Tiwari and Dr. S.A. Alavi. These persons were involved at all stages of research and they provided much needed assistance while finalising the MSS of the thesis. The author will fondly remember their kind help. The sincere typing of this thesis by Mr.N.Nandakumar is also duly acknowledged.

Lastly, the author expresses his most affectionate appreciation of the emotional support provided by his brothers Mr. Rostam Ardeshirian, Mr. Farokh Ardeshirian and by his sister Mrs. Farzana Ardeshirian without which the author could not have completed his studies.
