

ACKNOWLEDGEMENTS

I am highly indebted to Dr. J.R. Pandya, M.Sc., Ph.D., for his continued guidance, unfailing encouragement and keen interest throughout the course of this work.

I am grateful to Professor M.M. Patel, Head, Physics Department, Faculty of Science and to Professor R.V. Joshi, Head, Applied Physics Department, Faculty of Technology and Engineering, for their kind interest and for providing excellent facilities and help in the Research Laboratory and departments.

I would also like to express my gratefulness to Professor N.S. Pandya for introducing me to research work and for his continued active interest in the work.

I acknowledge with gratitude the comments, criticisms and help of Shri K.L. Patel, Miss C.T. Acharya and Dr. B.J. Mehta at several stages of the present work. My thanks are also due to Miss M.D. Trivedi, Shri S.B. Trivedi, Shri A.R. Vyas, Dr. G.R. Pandya and other research associates for their help in the preparation of the thesis.

I am grateful to Professor Suresh Sethna, former Head of the Chemistry Department, Faculty of Science and now Pro-Vice-Chancellor, M.S. University of Baroda, for providing me excellent facilities in the Chemistry Department to carry out the work on electrical conductivity.

The co-operation of the staff of the Central Workshop during the period of this work is gratefully acknowledged.

I am also thankful to Shri V.F. Bhavsar for typing the manuscript beautifully.

I am indebted to the M.S. University for awarding me a research assistantship which enabled me to carry out the present work.

RAMESH SHAH
