

LIST OF FIGURES

<u>FIGURE</u>		<u>PAGE</u>
I.1	Location map	5
I.2	Prevailing wind direction-Gujarat	8
I.3	Annual average rainfall map-Gujarat	9
I.4	Geological map of Kutch	12
I.5	Tectonic map of Kutch	17
III.1	Topographic map of Mainland Kutch	42
III.2	Geomorphic map of Mainland Kutch	43
III.3	Map showing the drainage pattern of Mainland Kutch	49
IV.1	Miliolite occurrences (Kutch)	54
IV.2	Geological map of the study area with miliolite exposures	56
IV.3	Schematic diagram showing the relation between various types of Kutch miliolites	63
IV.4	Blockwise distribution of miliolite	71
V.1	Maximum size variation of various allochems of Kutch miliolites in relation to distance and topography along traverse AA'.	156
V.2	Average size variation of various allochems of Kutch miliolites in relation to distance and topography along traverse AA'	158
V.3	Maximum size variation of various allochems of Kutch miliolites in relation to distance and topography along traverse BB'	160

<u>FIGURE</u>		<u>PAGE</u>
V.4	Average size variation of various allochems of Kutch miliolites in relation to distance and topography along traverse BB'	162
VI.1	Factors affecting the compaction of carbonate sands	189
VI.2	Schematic diagram showing the source of CaCO_3 cement in Kutch miliolites	199
VI.3	Schematic diagram showing zone of formation of 'Vadoid' in Kutch miliolites	218
VIII.1	Schematic diagram showing transportation and the sorting action of sediments by wind	244
VIII.2	Schematic diagram showing inlandward shifting of miliolitic sands of Kutch by various transportation processes of wind	251
VIII.3	Deflection and diversion of airflow over obstacles and deposition of sand	254
VIII.4	Diagram showing deposition of debris around an obstacle	255
VIII.5	Schematic diagram showing diversion of wind over and around obstacle (hills and ridges) and deposition of miliolitic sands in different modes	256
