

A C K N O W L E D G E M E N T S

I take this opportunity to express my deep sense of gratitude to Dr. G. Prathapasenan for his valuable guidance, keen interest and constant encouragement throughout these investigations. My thanks are also due to Dr. C. H. Pathak, Professor and Head, Department of Botany, M.S. University of Baroda for the help and encouragement extended to me throughout the course of this work and also for his creative criticism and valuable suggestions offered during the preparation of this thesis. I acknowledge the frank comments and encouragement given to me by Dr. (Mrs.) K. A. Bhagwat. The co-operation and interest of my colleagues is gratefully appreciated. My thanks are also due to Miss Humera Ahmed and Mr. K. R. Raju, and the clerical staff. I wish to specially thank Mr. P. S. Ehoite for the neat typing of this thesis. Last but not the least I am deeply indebted to the sisters of my congregation, members of my family and friends for their valuable prayers, love and concern.

I gratefully acknowledge the award of a Teacher Fellowship by the U.G.C. which enabled me to carry out these investigations.
