

List of Tables

Table. No	Table Details	Page No
2.1	Comparison of different topologies used for AC-AC conversion	61
3.1	Selection of sector and corresponding phase switches	93
3.2	Switching States and Switch Condition for three-phase inverter	104
3.3	Voltage vectors, Switching vectors, Output phase voltages, Output line voltages	108
3.4	Switching Time Calculation at Each Sector	115
6.1	Design specification of the proposed approach	177
6.2	Parameter Definitions	191
