

LIST OF FIGURES

FIGURE NO.	TITLE	PAGE NO.
1.1	Adult population affected by underweight and obesity by level of development	2
1.2	Downward spiral of development of obesity and its consequences	8
2.1	The energy balance equation	23
2.2	Hypertrophy and hyperplasia of fat cells	24
2.3	Nutrition transition and its health implications	26
2.4	Prevalence of undernutrition and overnutrition in 8-10 year old school children of Manila	32
2.5	Prevalence of overweight and obesity in school children of different ethnicity	36
2.6	Physical activity and dietary effects on obesity and related chronic diseases	51
2.7	Factors responsible for obesity among Indian children	60
2.8	Pathogenesis of obesity	62
2.9	Leptin's action in the body	64
2.10	The vicious cycle of childhood obesity	70
3.1	Location of selected schools in urban Vadodara	105
3.2	Experimental plan	107
4.1	Anthropometric profile of the children	127
4.2	BMI of the children in relation to class	129
4.3	Prevalence of overweight and obesity using different standards	135
4.4	Age wise prevalence of overweight and obesity	137
4.5	School wise prevalence of undernutrition and overnutrition	141
4.6	Percentiles curves of boys aged 12-17 years	147
	Percentiles curves of girls aged 12-17 years	148

4.7	Prevalence of overweight and obesity in school children : Departmental studies	151
4.8	School meal programme and prevalence of overweight and obesity in children	159
4.9	Daily use of TV/Computer by children	163
4.10	Percent calories from proximate principles	165
4.11	Contribution of > 30% of calories from fat in children	166
4.12	Energy intake > 100% of RDA in relation to age	169
4.13	Energy intake and energy expenditure in children	171
4.14	Energy intake and energy expenditure per kg body weight of children	172
4.15	Presence of dietary risk factors in children	173
4.16	Atherogenic indices for boys	176
4.17	Lipid profile in younger and older children	177
4.18	Effect of exercise on triglyceride levels in children	183
4.19	Mean increase in BMI of children	191
4.20	Determinants of BMI	194
