

ACKNOWLEDGEMENTS

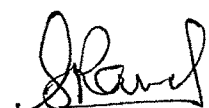

I take this opportunity to express my deep gratitude and sincere thanks for the invaluable help and guidance that I have received from my honorable, learned and eminent guides Dr K B Pai, Professor at the department of Metallurgical Engineering, M.S University of Baroda and for his continued interest in my work, useful guidance and encouragement

I am thankful to Prof D K. Basa, Head of the Metallurgical Engineering Department for his guidance and prompt action in procurement and provisioning of metals, materials and equipments required for the projects

I am thankful to Shri Gurumurthy (AFD), B A R C , Bombay, for his kind support and extending full support in carrying out work at B A R C , At the same time I am also thankful to the authority of SICART, Vallabh Vidhyanagar, to help me in obtaining SEM and EDAX results

I am thankful to the teaching and non-teaching staff of the Department of Metallurgical Engineering, M S U , for their utmost co-operation and help in providing the use of laboratories and equipments as and when required

Last but not the least I wish to express my sincere gratitude to all those who have helped me directly or indirectly in completing this work through their encouragement, co-operation and support

Shatlesh R. Raval
