

## LIST OF TABLES

Table No.	Name of table
1.1	Savings deposits with commercial bank.
1.2	Structure of interest rates.
1.3	Net resources mobilized by mutual fund.
1.4	Banks v/s mutual funds.
3.1	Cumulative resources mobilized by public sector mutual funds.
3.2	Cumulative resources mobilized by mutual funds.
3.3	Cumulative resources mobilized by mutual funds.
3.4	Microscopic view of growth of resources mobilised by mutual funds India.
3.5	Year wise growth of assets.
3.6	Schemes wise assets under management.
3.7	Schemes wise growth rate of AUM.
3.8	Growth of mutual funds schemes.
3.9	Year -wise growth of schemes ( % of total schemes).
3.10	Year wise - growth rate of mutual funds schemes: (%).
3.11	Schemes wise new schemes launched.
3.12	Sector wise quarterly new schemes launched.
3.13	Sector wise number of players.
3.14	Microscopic view of growth of mutual funds in India.
4.1	Investment pattern of benchmark mutual funds.
4.2	Investment pattern of Cholamandalam mutual fund.
4.3	Investment pattern of escorts mutual funds.
4.4	Investment pattern of j m finance mutual funds.
4.5	Investment pattern of Kotak mutual funds.
4.6	Investment pattern of Reliance mutual funds.
4.7	Investment pattern of Sundaram mutual fund.
4.8	Investment pattern of Tata mutual fund.
4.9	Investment pattern of Taurus mutual funds.
4.10	Comparison of private sectors mutual fund about investment in equity.
4.11	Comparison of private sectors mutual fund about investment in bonds & debentures.
4.12	Comparison of private sectors mutual fund about investment in government securities.
4.13	Comparison of private sectors mutual fund about investment in MMI.
4.14	Comparison of private sectors mutual fund about investment in others.
4.15	Overall investment pattern of Indian private sector's mutual funds.
4.16	Industry- wise equity portfolio holding of Benchmark mutual fund
4.17	Industry- wise equity portfolio holding of Cholamandalam mutual fund.
4.18	Industry- wise equity portfolio holding of Escorts mutual fund.

- 4.19 Industry- wise equity portfolio holding of JM mutual fund.
- 4.20 Industry- wise equity portfolio holding - Kotak mutual fund.
- 4.21 Industry- wise equity portfolio holding of Reliance mutual fund.
- 4.22 Equity oriented portfolio holding - Sundaram mutual fund.
- 4.23 Equity investment portfolio of Indian private sectors mutual funds from 2002 to 2005.
- 5.1 Company wise NAV based average weekly return and ranking of selected schemes.
- 5.2 Positive and negative average return of selected schemes based on average weekly return.
- 5.3 Fund-class wise ranking of selected schemes according to NAV based average weekly return.
- 5.4 Fund class wise frequency distribution of schemes according to weekly NAV based positive and negative average return.
- 5.5 Overall ranking on the bases of average weekly return of selected scheme.
- 5.6A Average return of selected schemes of year 2002-003.
- 5.6B Average return of selected schemes of year 2003.
- 5.6C Average return of selected schemes of year 2004.
- 5.7 Company wise- yearly NAV based returns of selected schemes and ranking of Indian private sector's mutual fund.
- 5.8 Company wise frequency distribution of selected schemes according to positive and negative yearly return.
- 5.9 Fund-class wise NAV based yearly return and ranking of selected schemes.
- 5.10 Fund class wise frequency distribution of selected schemes according to NAV based positive and negative yearly average return.
- 5.11 Overall ranking of selected schemes according to yearly NAV based return.
- 5.12 Year-wise frequency distribution of schemes on the basis of yearly return.
- 5.13 Company wise standard deviation of NAV based weekly return of selected schemes.
- 5.14 Fund-class wise standard deviation according to NAV based weekly return.
- 5.15 Overall ranking of selected schemes according to standard deviation of NAV based weekly return.
- 5.16A Total investment risk of selected schemes of 2003.
- 5.16B Total investment risk of selected schemes of 2004.
- 5.16C Total investment risk of selected schemes of 2005.
- 5.17 Company- wise weekly NAV based statistics on risk ( $\sigma_p$ ) and return ( $r_p$ ) for selected schemes.
- 5.18 Overall ranking of schemes according to NAV based weekly average return and standard deviation of portfolio.
- 5.19 Company wise correlation ( $r_1$ ) between BSE Sensex and NAV based return of selected schemes.
- 5.20 Company wise frequency distribution of selected schemes according to positive and negative value of  $r_1$ .
- 5.21 Implications of beta value.

- 5.22 Company-wise ranking of selected schemes according to beta values and NAV return.
- 5.23 Company-wise frequency distribution of selected schemes according to positive and negative value of beta.
- 5.24 Fund class-wise ranking of selected schemes according to beta values and NAV return.
- 5.25 Fund-class wise frequency distribution of selected schemes according to positive & negative value of beta.
- 5.26 Overall ranking of selected schemes according to beta values and NAV return.
- 5.27 Systematic risk ( $\beta$ ) of selected schemes of private sectors mutual funds.
- 5.28 Company - wise Sharpe's index (SI) and it's difference from BSE index based on BSE Sensex and NAV return of selected schemes.
- 5.29 Company-wise frequency distribution of selected schemes according to positive & negative values of SI based on BSE Sensex and NAV return.
- 5.30 Company-wise frequency distribution of selected schemes according to positive & negative values of SI-BMR based on BSE Sensex and NAV return.
- 5.31 Fund -wise Sharpe's index (SI) and it's difference from BSE index based on BSE Sensex and NAV return of selected schemes.
- 5.32 Fund class-wise frequency distribution of selected schemes according to positive & negative values of SI based on BSE Sensex and NAV return.
- 5.33 Fund class-wise frequency distribution of selected schemes according to positive & negative values of SI-BMR based on BSE Sensex and NAV return.
- 5.34A Sharpe's performance measure of Indian private sectors mutual funds selected schemes of 2003.
- 5.34B Sharpe's performance measure of Indian private sectors mutual funds selected schemes of 2004.
- 5.34C Sharpe's performance measure of Indian private sectors mutual funds selected schemes of 2005.
- 5.35 Sharpe's differential return of selected schemes.
- 5.36 Company - wise Treynor's measure (tm) and it's difference from BSE index (TM-BMR) based on BSE Sensex and NAV return of selected schemes.
- 5.37 Company-wise frequency distribution of selected schemes according to positive & negative values of tm based on BSE Sensex and NAV return.
- 5.38 Company-wise frequency distribution of selected schemes according to positive & negative values of TM-BMR based on BSE Sensex and NAV return.
- 5.39 Fund-class wise Treynor's measure (tm) and it's difference from BSE index (TM-BMR) based on BSE Sensex and NAV return of selected schemes.
- 5.40 Fund class-wise frequency distribution of selected schemes according to positive & negative values of tm based on BSE Sensex and NAV return.

- 5.41 Fund class-wise frequency distribution of selected schemes according to positive & negative values of TM-BMR based on BSE Sensex and NAV return.
- 5.42A Treynor's performance measure of Indian private sectors mutual funds selected schemes of 2003.
- 5.42B Treynor's performance measure of Indian private sectors mutual funds selected schemes of 2004.
- 5.42C Treynor's performance measure of Indian private sectors mutual funds selected schemes of 2005.
- 5.43 Treynor's differential return of selected schemes.
- 5.44 Company - wise Jensen measure (alpha) based on BSE Sensex and NAV return of selected schemes.
- 5.45 Company-wise frequency distribution of selected schemes according to positive & negative values of alpha based on BSE Sensex and NAV return.
- 5.46 Fund class - wise Jensen measure (alpha) based on BSE Sensex and NAV return of selected schemes.
- 5.47 Fund class-wise frequency distribution of selected schemes according to positive & negative values of alpha based on BSE Sensex and NAV return.
- 5.48A Jensen's performance measure of selected schemes of 2003.
- 5.48B Jensen's performance measure of selected schemes of 2004.
- 5.48C Jensen's performance measure of selected schemes of 2005.
- 5.49 Comparative performance of mutual fund as per Sharpe, Treynor's and Jensen's models.
- 5.50A SI measure compared with tm & JM.
- 5.50B Treynor's measure compared with SI & J M.
- 5.50C Jensen's measure compared with SI & TM.
- 5.51 Income group – wise distribution of investors.
- 5.52 Occupation – wise distribution of investors.
- 5.53 Cross-classification of investors according to occupation and income.
- 5.54 Age– wise distribution of investors.
- 5.55 Saving according to investors age group.
- 5.56 Saving according to investors occupation.
- 5.67 Saving according to investors income group.
- 5.58 Distribution of investors according to the types of investment avenue.
- 5.59 Distribution of investors according to the types of investment avenue and different group.
- 5.60 Distribution of investors according to their objective of investment in M.F.
- 5.61 Distribution of investors according to age and objective of investment:
- 5.62 Distribution of investors according to occupation and objective of investment.
- 5.63 Distribution of investors according to income and objective of investment.
- 5.64 Sector -wise preference of investors based on age groups.
- 5.65 Sector -wise preference of based on occupation.
- 5.66 Sources of information.
- 5.67 Ranking of various types of fund based on mean.
- 5.68 Opinion of intermediaries regarding the future of mutual fund industry in India.
