

LIST OF PLATES

Plate No.	Title	Page No
3.1	Fabric samples under stress for growth and recovery property under constant rate of load	57
3.2	Tensile Strength testing of Woven and Knitted fabric samples	58
3.3	Matefem Air-permeability Tester	59
3.4	Basic pattern developed for pilot study	62
3.5	Basic patterns developed for the pilot study	63
3.6	Front pattern adapted for final construction	64
3.7	Front pattern adapted for final construction	65
3.8	Basic sleeve patterns used for final construction	65
3.9	Back pattern adapted for final construction	66
3.10	Back pattern adapted for final construction	67
4.1	Microscopic view of fibre content of fabrics	73
4.1(a)	Fabrics used for the study	73(a)
4.2	Plain woven garments on 81.0 cm standard size figure	105
4.3	Plain woven garments on 86.0 cm size figure	106
4.4	Twill weave garments on 81.0 cm standard size figure	108
4.5	Twill weave garments on 86.0 cm size figure	109
4.6	Single jersey knit garments on 81.0 cm standard size figure	110
4.7	Single jersey knit garments on 86.0 cm size figure	111
4.8	Single jersey knit garments on 91.0 cm size figure	112
4.9	Single jersey knit garments on 96.0 cm size figure	114
4.10	Rib knit garments on 81.0 cm standard size figure	115
4.11	Rib knit garments on 86.0 cm size figure	116
4.12	Rib knit garments on 91.0 cm size figure	117
4.13	Rib knit garments on 96.0 cm size figure	118
