

Acknowledgements

I am completely indebted to my research supervisor Prof. Manoj A. Limaye, Department of Geology, The M. S. University of Baroda, Vadodara, for his able guidance, valuable support and continuous encouragement for this research work. He taught me certain aspects for proper petrographic studies. He shared his research experience time to time and provided valuable comments which proved very helpful to improve my work. I am very grateful for his acceptance and patience during research work and thesis writing.

The research work was initiated during the headship of Prof L.S Chamyal, Ex-Head, Department of Geology, The M. S. University of Baroda, Vadodara. I extend my sincere thanks to him for his constant encouragement and for providing all the departmental facilities to carry out research work smoothly. I am grateful to Prof. A. V. Joshi, Head, Department of Geology, The M. S. University of Baroda, Vadodara for his valuable suggestions regarding studying the concepts of structural geology and applying it in this research work. I am also thankful to Prof. B.S. Deota as well as other faculty members for their kind support.

I want to express my sincere gratitude to Prof. (Retd.) Subhash J. Desai, (Former Head, Department of Geology, MSUB) for doing detailed proof reading and suggesting important points for improvement of the text during thesis writing stage.

I am also grateful to the DST-Woman scientist (WOS-A) project (Ref.no. SR/WOS-A/EA-48/2018), for providing funding during last two years (2019-21) of my research tenure.

I would like to thank the Director of the CSIR-NGRI, Hyderabad for extending the analytical facilities. I am very thankful to Dr. K S V Subramanyam, Dr. D Purushotham, Dr. M Ram Mohan and Dr. M Satyanarayanan of the CSIR-NGRI for the help rendered during sample preparation for HR-ICP-MS and XRF analyses. I thankfully acknowledge the help and co-operation offered by Prof. N.V. Chalapathi Rao, Dr. Dinesh Pandit, Dr. Mayuri Pande, Mr. Deepak Verma and Dr. Hireya Chauhan, Department of Geology (Center of Advanced Study), Institute of Science, Banaras Hindu University for carrying out EPMA analyses. I also want to thank Mr. Mohammad Vohra for his help in rock sample cutting and thin section preparation.

I would like to extend my sincere thanks to my research colleague, Dr. Aditya Joshi for his valuable suggestions and genuine support during research paper writing and thesis writing. I am thankful to Dr. Apurva Shitole, Ms. Mitali Trivedi, Ms. Parita Goraniya, Ms.

Kanika Pokhariya, Mr. Chinmay Dongare, Mr. Sandeep Patel, Ms. Priyanka Rathod, Ms. Mitali Shedge, Mr. Suryansh Gaur and some dissertation students for accompanying me in the field and helping me in field studies. Due to their help only, I could accomplish my field work safely and easily.

I am thankful to Dr. Alpa Sridhar for her valuable suggestions especially during the phase of project work. I thankfully acknowledge Mr. Tirthrajsingh Solanki and Ms. Samriddhi Mishra for their help in installation of softwares related to research work. I want to extend my special thanks to Dr. Rohit Pandey and Dr. Rupali Yadav (Department of Geology, Institute of Science, BHU) who helped me in various ways. I would also like to acknowledge the support provided by departmental non-teaching staff.

My acknowledgement would be incomplete without mentioning the special people in my life. I feel deep gratitude for my parents who always motivated me to be progressive in life and inculcated the importance of perseverance in me to achieve life goals. I am very much thankful to my husband, Mr. Nakul Akolkar for his understanding and continuous support to complete this research work. I also want to extend my special thanks to my in-laws, Mr. Pramod Akolkar (Father-in-law) and Mrs. Anuya Akolkar (Mother-in-law) for their valuable support and encouragement during the entire research period.

Gayatri Nakul Akolkar
