

LIST OF RESEARCH PUBLICATIONS

- (1) Immobilization of β -galactosidase onto polymeric supports.
S. Reji Kumar and Surekha Devi
J. App. Poly. Sci. 1995, **55**, 871.
- (2) Preparation and characterization of immobilized pepsin on polymeric supports.
S. Reji Kumar and Surekha Devi
J. Macromol. Sci. Pure and App. Chem. 1995, **32**, 2035.
- (3) Immobilized proteolytic enzymes on resinous material and their use in milk clotting.
B. Shah, **S. Reji Kumar** and S. Devi
Proc. Biochem. 1995, **30**, 63.
- (4) Preparation and characterization of bound urease onto polymeric supports.
S. Reji Kumar and Surekha Devi
J. Mol. Cat. B. Enzymatic (Accepted, 1996)
- (5) Hydrolysis of lactose and milk whey using fixed bed reactor containing covalently bound β -galactosidase onto chitosan and crosslinked poly(vinyl alcohol).
S. Reji Kumar and Surekha Devi
Int. J. Food Sci. & Tech. (Accepted, 1996)
- (6) Continuous hydrolysis of urea by using immobilized urease in a fixed bed reactor.
S. Reji Kumar and Surekha Devi
Biotechnol. Bioeng. (Communicated, 1996)
