

ACKNOWLEDGEMENT

It is my pleasure to express my deep sense of gratitude to Prof. A.V. Ramachandran for the invaluable guidance, encouragement apart from the many hours spent with me for the completion of this thesis.

I am thankful to Prof. Bonny Pilo, Head, Department of Zoology for providing all facilities for carrying out the present study.

My sincere thanks are also due to Dr. M. Michael Aruldas and his colleagues at Department of Endocrinology, Taramani, Madras for providing the facilities and help for carrying out hormonal assays.

My special thanks are due to Dr. (Miss) M. V. Asnani, Reader in Zoology, for time to time help rendered in carrying out the work and also in the preparation of the thesis.

I am also thankful to Dr. Meena Patel for giving me technical suggestions and help during the course of my work.

My special thanks are due to Dr. (Mrs.) S. J. Killedar, Dr. John Joseph and Miss. Dipti Singh for their valuable help and encouragement throughout.

I am also thankful to the UGC for providing me a project assistantship in the research project entitled "Pineal adrenal axis in reproductive functioning and metabolic physiology of birds" and also the M.S. University of Baroda for granting me junior Research Fellowship subsequently.

I also thank all my teachers and Junior colleagues and also members of non-teaching staff for the help rendered to me in one way or the other.
