## **Lists of Tables**

<b>Table-1:</b>	Estimated number of known species worldwide
<b>Table-2:</b>	Estimated number of plant species in India
<b>Tabel-3:</b>	Distribution of Ranges, Rounds and Beats in two divisions of GNPS
<b>Table-4:</b>	Distribution of Gir area in different ranges (in ha)
<b>Table-5:</b>	The top canopy vegetation in order of dominance in GNPS
<b>Table 6:</b>	Life form diversity in GNPS
<b>Table-7:</b>	Taxonomic diversity in GNPS
<b>Table-8:</b>	Distribution of monocotyledons Dicotyledons as monot to dicot ratio in different zones of GNPS
<b>Table-9:</b>	Ratio between Monocotyledons and Dicotyledons in GNPS
<b>Table-10:</b>	Life form distribution among different groups in GNPS
<b>Table-11:</b>	Comparison of ten dominant families of GNPS with different regions of Gujarat state
<b>Table-12:</b>	Summary of total dicot and monocot forms in respective zones
<b>Table-13:</b>	Summary in percentage of total dicot and monocot forms in respective zones
<b>Table-14:</b>	Dominance of families as campared to the total plant species in GNPS
<b>Table-15:</b>	Rare plants in GNPS
<b>Table-16:</b>	Ecological data (frequency, abundance and density) of different life forms in GNPS
<b>Table-17:</b>	Ecological data of different trees species in GNPS
<b>Table-18:</b>	Ecological data of different shrubs species in GNPS
<b>Table-19:</b>	Ecological data of different herbs species in GNPS
<b>Table-20:</b>	Ecological data of different climbers species in GNPS
<b>Table-21:</b>	Ecological data of different grasses species in GNPS
<b>Table-22:</b>	Diversity indices in various zones of GNPS
<b>Table-23:</b>	Important value index of the important tree species in GNPS
<b>Table-24:</b>	Comparison of plant inventory (tree) with past records
<b>Table-25:</b>	Comparison of plant inventory (shrubs) with past records
<b>Table-26:</b>	Comparison of plant inventory (herbs) with past records
<b>Table-27:</b>	Comparison of plant inventory (climbers) with past records
<b>Table-28:</b>	Comparison of plant inventory (grasses) with past records
<b>Table-29:</b>	Lifeform diversity of past records
<b>Table-30:</b>	Occurrence of dung pies around the selected nesses of GNPS
<b>Table-31:</b>	Occurrence of abnoxies weeds around the nesses of GNPS
<b>Table-32:</b>	Regeneration survey of browsable species in GNPS
