

## **LIST OF GRAPHS**

<b>Graph No.</b>	<b>Legend</b>	<b>Page No.</b>
Graph 5.1	Origin from different vertebral levels	99
Graph 5.2	Variation in distance from origin of IIA to the mid-sagittal plane between sexes	101
Graph 5.3	Relation of internal iliac artery with sacroiliac joint	103
Graph 5.4	Frequency of Length of internal iliac artery	104
Graph 5.5	Frequency of Diameter of internal iliac artery	106
Graph 5.6	Incidence of mode of termination of internal iliac artery	108
Graph 5.7	Variations in the level of division of internal iliac artery	112
Graph 5.8	Frequencies of different branching patterns of internal iliac artery	113
Graph 5.9	Different modes of origin of Obturator artery	117
Graph 5.10	Different modes of origin of Inferior gluteal artery	122
Graph 5.11	Incidence of variations in the origin of the Iliolumbar artery	123
Graph 5.12	Number of Iliolumbar artery present in the Hemi-pelvis	125
Graph 5.13	Different modes of origin of Inferior gluteal artery	127
Graph 5.14	Number of Superior vesical artery	129
