

LIST OF FIGURE

Legends	Page No
Figure 1.1: Heart Organisation	2
Figure 1.2: Interior of Right Atrium And Tricuspid Valve	5
Figure 1.3: Interior of Ventricles of Heart	7
Figure 1.4: Superior View of Valves of Heart	9
Figure 3.1: Schematic Presentation of Atrioventricular Valvular Complex	15
Figure 3.2: Surface View Of Bicuspid Valve Of Heart	18
Figure 3.3: Aortic Valve cut open	22
Figure 3.4: Schematic Diagram To Show Leaflet Of Pulmonary Valve	26
Figure 3.5: Development Of Tricuspid and Bicuspid Valve	28
Figure 3.6: Development of Aortic and Pulmonary Valve	29
Figure 3.7: Bicuspid Pulmonary Valve	31
Figure 3.8: Papillary Muscle and Chordie in Right Ventricle (TChT-True Chordae Tendinae,FChT-False Chordae Tendinae)	54
Figure 3.9: Papillary Muscle of Left Ventricle	56
Figure 4.1: Instruments Used During Study	70
Figure 4.2: Method To Measure Annular Circumference	72
Figure 4.3: Length & Width Of Cusp Of Tricuspid Valve	73
Figure 4.4: Cleft And Scallop Present In Cusp Of Valve	73
Figure 4.5: Bicuspid Valve Cusp-AM-Anteromedial, PL-Posterolateral	74
Figure 4.6: Aortic Valve-RCC-Right Coronary Cusp, LCC-Left Coronary Cusp, NCC-Non Coronary Cusp	75
Figure 4.7: Schematic Diagram To Show Location Of Coronary Ostia 1.Above The Level Of Annulus-Tubular, 2.At The Level Of Annulus-Sinotubular, 3.Below The Level Of Annulus-Sinus	75
Figure 4.8: Pulmonary Valve- RAC-Right Anterior Cusp, LAC-Left Anterior Cusp, PC- Posterior Cusp	76
Figure 4.9: Measurement Of Length Of Papillary Muscle	77
Figure 5.1: Four Cuspidial Right Atrioventricular Valve	80
Figure 5.2: Bicuspidial Right Atrioventricular Valve	81
Figure 5.3: Single Cusp Right Atrioventricular Valve	81
Figure 5.4: Triangular and Rectangular Shape Of Cusp	83
Figure 5.5: D Shaped Cusp Of Tricuspid Valve	83
Figure 5.6: Presence Of Additional Cusp In Left Atrioventricular Valve	91
Figure 5.7 Rectangular & Triangular Shape Of Cusp	93
Figure 5.8 D Shaped And Rectangular Bicuspid Valve	93
Figure 5.9: Cleft & Scallop On Bicuspid Valve	97
Figure 5.10: Position Of Coronary Ostia-Above Annulus & At Annulus	102
Figure 5.11: Sinus Position Of Coronary Ostia	103
Figure 5.12:Tubular Position Of Coronary Ostia	103
Figure 5.13: Cusps Of Pulmonary Valve	107
Figure 5.14: Open Pulmonay Valve	107
Figure 5.15:Missing Septal Papillary Muscle	111
Figure 5.16: Conical Shaped Papillary Muscle (PM)	114
Figure 5.17: Flat Shaped Papillary Muscle	114

Figure 5.18: Bifid Papillary Muscle	114
Figure 5.19:Trifid Right Papillary Muscle	115
Figure 5.20: 2group Papillary Muscle	118
Figure 5.21: 3group Papillary Muscle	118
Figure 5.22: 4group & Bifid Left Papillary Muscle	118
Figure 5.23 : Absent Thebesian Valve On Coronary Sinus	121
Figure 5.24: Completely Obstructive Thebesian Valve	123
Figure 5.25:Semilunar Thebesian Valve	124
Figure 5.26: Fenestrated Membranous Thebesian Valve	125
Figure 5.27: Biconcave Band Like Thebesian Valve	125
Figure 5.28-Thread Like (In this study Other) Thebesian Valve	125
Figure 5.29: Fibromuscular Thebesian Valve	127
Figure 5.30: Shows Presence of Eustchian Valve	128
Figure 5.31: Ridge Like Eustachian Valve	129
Figure 5.32- Membranous Eustachian Valve	130
Figure 5.33 : Shows Eustachian valve associated with chiari Network	131
Figure 5.34:Shows Presence Of Chiari Network	132
Figure 5.35: Chairi Network Reticular Network Of Fine Strand	133
Figure 5.36: Chairi Network Primary Attachment On Eustachian Valve	133
Figure 5.37: Chiari Network Associated With Left Venous Valve Remnant	133
Figure 5.38: Shows Presence Of LVVR Over The Fossa Ovalis	134
Figure 5.39: LVVR With Fibrous Multiple Strand	135
