When I think back on the time between when I first decided to pursue a Ph.D. and when I finally handed in my thesis, I see a remarkable resemblance to the ascent of a mountain. My thesis and my quest would be incomplete without mentioning the significance of the support system. It is with deep gratitude that I acknowledge the efforts of all those who contributed to making my dream a reality.

I am highly thankful to my companion God Almighty for always being with me together and removing all obstacles from my path and empowering me with power, unconditional love and bliss.

Dr. Padamnabhi S. Nagar (Nagar sir), who has been an invaluable resource during my studies, has my heartfelt gratitude. His insightful guidance, firm direction, stimulating conversations, and constructive criticism have all contributed to my research success. His boundless enthusiasm and relentless pursuit of excellence have always been an inspiration to me. I would like to express my gratitude to him for believing in me and giving me the freedom to work in my own way. My association with him has groomed me both personally and professionally and I consider myself fortunate to have had the opportunity to work with him. I run short of verbal expressions to encapsulate my gratitude for him.

I am profoundly indebted to our respected Prof. N. S. R. Krishnayya, Head and Prof. Sandhya K. Garge, former Head Department of Botany, Faculty of Science, for extending all the laboratory facilities to me.

I am at loss of words to express my gratitude to my parents. Even the best adjectives and the nicest words would not be enough to describe their contribution in my journey. My Papa has been the sturdy wall that protects my dreams and has fostered my aspirations. His motivation in times of hardship, his love without conditions, and their patience to accommodate my unpredictable schedule, along with their blessings, have propelled me time and time again, enabling me to stand firmly on my own two feet. I shall feel blessed to be their daughter. I am also grateful to my siblings, Anoop and Neelam Dwivedi, for their support whenever I needed.

I thank the Almighty to give me the strength to sail through all the hurdles with immense courage and positivity.

Lastly, I would acknowledge each and every person who has been of even smallest of my help and have forgotten to mention unknowingly.
