

Acknowledgements

I want to express my sincere appreciation to my supervisor, **Dr. Amar Ballabh**, for his direction and assistance throughout this project and for allowing me to conduct this research. Additionally, I will always be appreciative of the support, patience, and encouragement he has given me over the past few years, particularly during the difficult times.

For giving infrastructure and instrument facilities, I thank **Prof. Neelima Kulkarni, Prof. Anjali Patel, Prof. Shailesh Shah**, and **Prof. Ashutosh Bedekar**, Offg. Head, Department of Chemistry. I thank UGC-DAE-CSR and Ministry of Social justice and Empowerment for Research Fellowship and funding the Research work.

I thank DST-PURSE, DSTFIST, UGC-CAS, and UGC-XII plan grants for financing the single-crystal X-ray diffractometer, 400 MHz NMR, polarizing microscope, and computational facilities in the Department of Chemistry at The Maharaja Sayajirao University of Baroda.

I owe a great deal of gratitude to **Dr. Hemant Soni** for DFT studies. I appreciate **Dr. Vandana Rao's** aid with the SEM and PXRD analyses from the Department of Metallurgy at MSU Baroda's Faculty of Technology, and I thank **Mr. Hemil Patel** for his assistance with the rheological studies.

I appreciate all of the single crystal XRD, NMR, FT-IR, UV, PL, and POM instrument technicians and in-charges. I also appreciate the Department of Geology's help with the SEM study.

After Six years at the same lab, I am grateful for the group's support and ability to make 8-plus hour days seem much more manageable. I owe our group members **Ms. Mayuri Shaiwale** and **Ms. Varsha Bhardwaj** an obligation of gratitude for all of their assistance with our collaborative research and small tea breaks. Also thankful to the lab colleagues **Sanjiv sir, Himanshu bhai, Jagrut, Sudhir, Kulsum** for teaching me many new things and kept me entertained in the lab, something for which I am grateful. Also grateful for the assistance and companionship

of all the dissertation students who collaborated with me in the lab. (Among all, Prachi Singh)

A special thanks goes to **Hemil Patel** and **Kaushal Chaudhary** for helping me to make the most of the precious few moments spent outside of lab. Additionally, I'd like to credit **Ankita Singh** for diverting my attention from chemistry. She was constantly available to lend support or lend a sympathetic ear.

Personally, I would like to thank my family and for supporting me throughout the years, financially, practically and with moral support, especially my **papa**. My greatest appreciation is for my **Mami** and my sister **Dipu**, she has a fierce and unflinching confidence in me, and her understanding and love have been a tremendous source of optimism that I have been able to take courage from when things were difficult.

To guarantee the success of my research, many more people than those contributed in a variety of ways, and I am grateful to them all.
