

LIST OF TABLES

		Pg. No.
Table 2.1	Chart showing comparison of PVD & CVD coating processes	14
Table 3.1	Lists the percentage share of coats of different methods of obtaining surface layers, with special emphasis on coatings in Unite kingdom in 1991[60
Table 4.1 (a)	Individual steps of applied wet cleaning techniques	75
Table 4.1 (b)	Process Parameters of TiN/ZrN/ZrTiN coatings by cathodic arc deposition	76
Table C.1 (a)	Values of corrosion potential (E_{corr}) corrosion current density (I_{corr}) and protective efficiency for all Ti-N specimens in 1N H_2SO_4	111
Table C.1 (b)	Values of corrosion potential (E_{corr}) corrosion current density (I_{corr}) and protective efficiency for all Ti-N specimens in 3.5%NaCl	118
Table C.1 (c)	Values of corrosion potential (E_{corr}) corrosion current density (I_{corr}) and protective efficiency for all Ti-N specimens in 0.1N HCl.	123
Table C.1 (d)	Values of corrosion potential (E_{corr}) corrosion current density (I_{corr}) and protective efficiency for all Ti-N specimens in 11pH Na_2SO_4	127
Table C.2 (a)	Values of corrosion potential (E_{corr}) corrosion current density (I_{corr}) and protective efficiency for all ZrN specimens in 1N H_2SO_4 solution	134
Table C.2 (b)	Values of corrosion potential (E_{corr}) corrosion current density (I_{corr}) and protective efficiency for all ZrN specimens in 3.5%NaCl solution	138
Table C.2 (c)	Values of corrosion potential (E_{corr}) corrosion current density (I_{corr}) and protective efficiency for all ZrN specimens in 0.1N HCl	142
Table C.2 (d)	Values of corrosion potential (E_{corr}) corrosion current density (I_{corr}) and protective efficiency for all ZrN specimens in 11pH Na_2SO_4	146
Table C.3 (a)	Values of corrosion potential (E_{corr}) corrosion current density (I_{corr}) and protective efficiency for all ZrTiN specimens in 1N H_2SO_4	151
Table C.3 (b)	Values of corrosion potential (E_{corr}) corrosion current density (I_{corr}) and protective efficiency for all ZrTiN specimens. in 3.5%NaCl solution	156
Table C.3 (c)	Values of corrosion potential (E_{corr}) corrosion current density (I_{corr}) and protective efficiency for all ZrTiN specimens. in 0.1N HCl solution	161
Table C.3 (d)	Values of corrosion potential (E_{corr}) corrosion current density (I_{corr}) and protective efficiency for all ZrTiN specimens. in 11pH Na_2SO_4	166
