

ACKNOWLEDGEMENTS

No research is ever the outcome of single person's talent or effort. Several people have been instrumental in making this project a success allowing this project to be completed. Today at the acme of my thesis, I remember all my well wishers without whom this thesis would not have taken shape.

I offer flowers of gratitude to the Almighty God who has been the source of strength throughout my life. I express my warmest gratitude to my esteemed Guide, Prof. R.S.R. Murthy for introducing me to the interesting world of Nanotechnology for improvement of cancer chemotherapy. I thank him for his invaluable guidance and endless optimism during these years. He welcomed me with an open mind and provided me the opportunity to further strengthen my research education in his research group. His constructive criticism, perpetual encouragement, timely advice and meticulous attention were the real driving force throughout the course of my work.

I gives me immense pleasure to express² my heartfelt thanks to Dean, Faculty of Technology and Engineering, Prof. M R Yadav, Head Pharmacy Dept., Prof. Rajani Giridhar, Coordinator, Prof. A N Misra, Professor in Pharmaceutics, Professor in Medicinal Chemistry, Prof. S.H. Mishra, Professor of Pharmacognosy, Prof (Mrs.) Krutika Sawant and other teaching staff for their kind co-operation during the study.

Special thanks are due to All India Council of Technical Education, New Delhi (AICTE) for funding this project. My thanks also extended to my university and Indian Council of Medical Research, New Delhi (ICMR) for offering fellowship.

I owe special thanks to Prof Jukka Monkonen (Dean, School of Pharmacy, Faculty of Health Sciences, University of Eastern Finland, Kuopio, Finland) for providing me with best facilities to carry out the cell line studies. My sincere thanks to Dr. Hannu Monkonen and Dr. Vinoth Khandelwal (Post doc fellow at School of Pharmacy, Faculty of Health Sciences, University of Eastern Finland, Kuopio, Finland) for his invaluable guidance and encouragement throughout my cell line studies. A special thanks to Marjo Jauhiainen for her help in estimation of IPP and AppI by LC MS.

I wish to convey my sincere thanks to Dr. A. K. Mishra, Scientist "F", Dr. Rashi Mathur and Krishna Chutani, Institute of Nuclear medicine and Allied Sciences, New Delhi for their constant support and constructive suggestions throughout my work at INMAS. I am very thankful to Sun Pharma Advanced Research Company Ltd. for providing me a gift sample of Docetaxel and zoledronic acid as well as for conducting CryoTEM analysis. I am grateful to Tong Shen Enterprise Ltd., Taiwan for providing a gift sample of butyl cyanoacrylate monomer and Boehringer Ingelheim Germany for providing gift sample of Poly(lactide-co-glycolide) acid.

I will be untrue if I fail to acknowledge the most valuable technical assistance and morale support extended to me by especially Mr. Vaibhav Patel, Mr Abhinesh Kumar, Mr. Ansarullah, Mr. Mukesh Ukawala, Mr. Venkat Raju, Mrs Neha Shah and Mr. Manjappa during my research. I would like to express my sincere thanks to Mrs Grishma Patel, Mr Abhishek, Mr. Jigar Lalani, Mr Premlal, Mr Vijay Pawar, Mr Sandeep Chauhan, Mr kailash Petkar, Mr. Piyush and other colleagues for extending their support during the course of my work. I am thankful to all the M. Pharm students (2008-20011) for their kind cooperation.

I am also thankful to the entire non-teaching staff of the Pharmacy Dept. for their co-operation during the course of my work.

My deepest thanks belong to my family for their kind blessings, unbound affection and constant inspiration. Special thanks are due to my dearest fiancée and her loving family for their unfailing encouragement and moral support. No thanks would be enough to appreciate the constant encouragement by my friends Hiren Kukadiya and Sunil Patel to make my work smooth and hassle free. I extend my heartfelt thanks to all of them as I cannot mention each one of them individually.

Last, but not the least, I express my gratitude and apologize to everybody whose contributions, I could not mention in this section.

(Kiran Chaudhari)
