

ACKNOWLEDGEMENT

I pick up this opportunity to express my feelings and appreciation to all those who helped me during the course of this research work.

First of all I would like to express my sincere gratitude and warm regards to my research guide Prof.A.K.Rakshit for his efficient guidance, constant encouragement and valuable suggestions. His constructive criticism and stimulative discussion have been a source of motivation to accomplish this task.

I thank Prof.A.C.Shah and Prof.P.K.Bhattacharya for providing the necessary infrastructural facilities. I am also grateful to all the teaching and non-teaching staff of this department for their help and suggestions.

I acknowledge sincerely the financial support received from the Department of Biotechnology (DBT) for Junior Research Fellowship and Council of Scientific and Industrial Research (CSIR), Government of India, for awarding me Senior Research Fellowship during the tenure of this research work.

I am thankful to the management of Indian Petrochemical Corporation Limited (IPCL), Vadodara for providing library facilities. I am highly indebted to Dr.P.V.C.Rao of IPCL, for his excellent support and co-operation throughout the work right from the beginning.

Thanks are also due to Dr.A.K.Shah, Department of Microbiology and Biotechnology Centre, M.S.University of Baroda for providing me the necessary facility to carry out biodegradation studies. His able guidance not only helped me complete an important part of my research project but also gave me the much needed exposure to current trends and methodologies of research in microbiology.

My sincere thanks are also due to Dr.C.F.Desai, Department of Physics for provide me the facilities for FTIR analysis. The author herein also acknowledge the unreserved inspiration and kind suggestions received from Dr.Arun Pratap, Department of Applied Physics.

I thank Prof.Ajay Gupta, Center Director, Inter-University Consortium-Department of Atomic Energy Facilities, Indore for DSC measurements.

It is my great pleasure to express sincere thanks to my senior colleagues Dr.Veena Vangani, Dr.E.I.Tessy, Dr.Shireen, Dr.Anuradha, Dr.P.S.Jassal and Dr.Ambarish for their help and assistance.

Thanks are equally due to all my friends and colleagues Utkarsh, Bhaskar, Keyur, Ragesh, Alpesh, Paresh, Bragadish, Srividya, Anand, Nandita, Anjum and Yogesh for their help, unfailing moral support and encouragement during my research work.

I would be failing in my duty if I don't acknowledge Rasulbhai Parasara and Ismailbhai Mansuri's family for their affection and care they gave me during my stay in Baroda.

Words cannot confine the unflagging support and blessing of my loving parents without which this work would not have been accomplished. I also owe my brothers and sisters-in-law a word of thanks for their love and support.

Last but not the least, I owe thankfulness to my wife Nasim and nephews for their love and affection.

Finally, I thank Mr.Shirish for the effort that he has taken to bring this thesis to its final form.

- Ismail Mathakiya
