1.8	Identification, Nurture and Development of creativity	32
1.8.1	Identification of creativity	33
1.8.2	Nurturing of creativity	38
1.8.3	Development of creativity	43
1.9	Rationale of the study	60
1.10	Statement of the problem	65
1.11	Objectives of the study	66
1.12	Operationalization of the terms used	66
1.13	Hypotheses	68
1.14	Delimitations of the study	68
1.15	Conclusion	69
CHAPTER - II REVIEW OF RELATED LITERATURE		70-96
2.1	Introduction	71
2.2	Studies conducted on measurement of creativity	73
2.2.1	Some observations and implications	77
2.3	Studies conducted on correlates of creativity	78
2.3.1	Some observations and implications	84
2.4	Studies conducted on development of creativity	86
2.4.1	Some observations and implications	93
2.5	The place of the present study in the context of	94
	researches reviewed.	
CHAPTER - III METHODOLOGY OF THE PRESENT STUDY		97-154
3.1	Introduction	98
3.2	Design of the study	98

3.3	Variables of the study	99
3.4	Sample	99
3.5	Tools used in the present study	103
3.5.1	Test of creativity to identify the creativity level of the PSTTs	104
3.5.1.1	Construction of the creativity test	104
3.5.1.2	Description of the constructed creativity test	105
3.5.1.3	Development and selection of test - items	108
3.5.1.4	The try - out of the tool on a selected sample	109
3.5.1.5	Procedure for scoring the items	109
3.5.1.6	Selection of the test - items	113
3.5.1.7	The final format of the creativity test	114
3.5.1.8	Psychometric properties of the creativity test	115
3.5.2.	Preparation of the Creativity Programme (CP)	121
3.5.2.1	Description of the creativity programme	123
3.6	Procedure of data collection	130
3.7	Procedure for analysis of the data	139
CHAPT	ER-IV DATA ANALYSIS AND INTERPRETATION	140-154
4.1	Introduction	141
4.2.	Significance and relevance of using ANCOVA and ANOVA	142
	in the present study	
4.3	Significance of difference in the mean creativity score of	144
	the experimental and control groups	
4.4	Significance of difference in the mean fluency score of the	146
	experimental and control groups	

	·	PAGE No.	
4.5	Significance of difference in the mean flexibility score of	147	
	the experimental and control groups		
4.6	Significance of difference in the mean originality score of	148	
	the experimental and control groups		
4.7	Significance of difference in the mean elaboration score	150	
	of the experimental and control groups		
4.8	Differential impact of the creativity programme on PSTTs	151	
	of different caste category and academic stream		
4.8.1	Significance of main effects of variable-A (Caste Category)	153	
4.8.2	Significance of main effects of variable-B (Academic	153	
	Stream)		
4.8.3.	Significance of the interactions effect of variables A and B	153	
4.9.	Conclusion	153	
CHAPT	TER - V SUMMARY, FINDING, CONCLUSION,	155-179	
	DISCUSSION AND SUGGESTIONS
