

ACKNOWLEDGEMENTS

On presenting this thesis, I express my deep sense of gratitude to my research guide Dr.A.M.Talati, Professor and Head, Applied Chemistry Department, for taking keen interest in this investigation, for the inspiration and excellent guidance throughout the progress of this work, and for looking after my research requirements.

The value of his contribution far exceeds what these words of appreciation can express.

I express my sincere thanks to Professor S.M.Sethna, Pro-Vice-Chancellor and Professor S.M.Sen, Dean, Faculty of Technology and Engineering for their interest and encouragement.

I am thankful to Dr.S.S.Lele, Reader in Analytical Chemistry for the carbon, hydrogen and nitrogen estimations of the compounds.

I am also thankful to my research colleagues for their full cooperation throughout the research work.

Finally, the financial assistance received from C.S.I.R. is gratefully acknowledged.

(H. A. Vyas)
