

## CONTENTS

	PAGE
<b>01. INTRODUCTION</b>	
Environmental Pollution.	1
Water Pollution.	6
Air Pollution.	55
Noise Pollution.	73
Radiation hazards.	76
<b>02. OBJECTIVES</b>	81
<b>03. PART - I</b>	
Removal, Recovery and Utilization of Waste materials from Caprolactam effluent.	
General	83
Separation of Organic material from WL-I	96
Extraction of residual organics from WW-II	107
Adsorption of organics on GAC.	114
Recovery of sodium sulfate and its utilization.	119
Utilization of Fattyacids.	122
Comparison of TC, TOC and COD results.	146
Summary and conclusions.	160
<b>PART - II</b>	
<b>PART-II A</b>	
Removal of colour and organics from effluents.	
General	165
Experimental aspects.	171
Treatment Methodology.	183
Results and Discussion.	226
<b>PART-II B</b>	
Removal and Recovery of organics from effluents of detergent industry.	
General	230
Treatment	239
Results and Discussion.	240

	<b>PART-II C</b>	
	Removal of Mercury from effluent of Chlor-Alkali Industry.	
	General	242
	Treatment methodology	254
	Results and Discussion.	261
04.	<b>REFERENCES</b>	265
05.	<b>SUMMARY</b>	283
06.	<b>PAPER PRESENTATION</b>	289
