

APPENDIX - B

HOUSEHOLD PROFILE

There is a total of 300 sample households from two villages, Kodencherry and Puduppadi. The first 150 households are from Kodencherry village and the rest from Paduppadi.

- Due to growing importance of female headed households, sample households are divided into male headed and female headed (Col. 5 & 6).
- Total number of households is given in col. (4).
- Poverty line is taken as Rs. 7200 per annum. Income of the households (col. 7) includes income from all the sources, in the year of availing the first loan.

Sample Households : Gender Distribution, Headship and Income

Sr. No.	Male members	Female members	Total	Male headed	Female headed	Income
