

ACKNOWLEDGMENTS

I want to convey my heartfelt appreciation to all those who have supported me throughout the course of this research endeavor. First and foremost, my deepest gratitude goes to my research mentor, Dr. Vinay Kumar Singh. He not only introduced me to the intriguing and demanding realm of dithiocarbamates complexes but also provided invaluable guidance during my M.Sc. dissertation. This experience ignited my passion for research and set me on a path to pursue it as my chosen career. It is indeed a privilege to continue my Ph.D. studies under his guidance, alongside a highly skilled team of researchers. I consider myself exceptionally fortunate to have had an advisor who not only granted me the autonomy to explore but also provided invaluable guidance whenever I faced challenges. His keen observations and insightful comments played a pivotal role in shaping the overall direction of my research and enabled me to delve deeper into the subject matter. Throughout my Ph.D. journey, his unwavering patience, encouragement, and profound knowledge served as the driving force behind my motivation. His optimistic outlook on research continuously inspired me to embark on new intellectual pursuits. Furthermore, his consistent and exceptional suggestions have always come at the right time, contributing significantly to the refinement of my work. Beyond being a stellar mentor, he has been an outstanding motivator, imparting to me the essential skill of disciplined critical thinking.

I extend my gratitude to Prof. A. V. Bedekar, who is currently serving as the Head of the Department of Chemistry, for generously granting me access to the department's infrastructure. I also wish to express my appreciation to the former Department Head, Prof. S. R. Shah, Prof. (Dr.) Anjali Patel, and Prof. N. D. Kulkarni for their invaluable support during the initial stages of my work. I would like to acknowledge the financial support I received in the form of a project fellowship through the DST-SERB Project from the Science and Engineering Research Board, which is part of the Science and Engineering Research Council, and the Government of Gujarat for the "SHODH" project.

I would like to extend my gratitude to all the teachers in our department, who have served as guiding lights and played a vital role in shaping my perspective on both science and life as a whole. My sincere appreciation goes to Prof. S. R. Shah and Dr. Sujit Baran Kumar for their unwavering cooperation and continuous guidance in NMR analysis and single crystal X-ray analysis, respectively.

I want to offer a special thanks to Dr. Arpita Desai and Ms. Priyanka Mathur for their invaluable assistance in the Host-Guest binding study. I would also like to express my heartfelt gratitude

to all the operators of the department's instruments for their prompt support throughout the course of this research.

It is a pleasure to acknowledge my seniors, Dr. Chirag Savani, Ms. Shaily Patel, Ms. Drashti Patel, Ms. Heena Parmar and Mr. Rajdeep Pateliya for their cooperation, insightful suggestions, and the warm camaraderie they provided during my Ph.D. journey. I extend my sincere thanks to my colleagues, Mr. Aniket Deshmukh and Ms. Yuti Desai for creating an enjoyable working environment.

I am grateful to Ms. Alka Singla, Mr. Vrajesh Shah, Mr. Rushik Vasava, and Mr. Mohammed Rangwala with whom I collaborated on their dissertation work. My laboratory friends, Dr. Khushboo Bhandari and Dr. Sadeka Munshi, deserve special thanks for their support.

I would also like to thank Dr. Rina Soni, and Ms. Meera Mori for their assistance with NMR analysis. My heartfelt acknowledgment extends to the office staff of the department, particularly Mr. K. J. Rane and Mrs. Revathi Ganesh, for their invaluable help in all official activities related directly or indirectly to my work.

Above all, I would like to humbly thank H. H. Shri Mataji Nirmala Devi (Founder of Sahaj Yoga) for divine love and blessings. I must emphasize that none of my achievements would have been possible without the boundless love and unwavering patience of my family. I extend my special gratitude to my husband, Vilas Waykole, for his unconditional love and steadfast support. My heartfelt appreciation goes to my parents, Sanjay Kolte and Madhuri Kolte, as well as my in-laws, Subhash Waykole and Mangala Waykole. I am also deeply thankful to my brother, Parag, and brother-in-law, Lalit, for their enduring support and blessings throughout my life.

KOLTE KOMAL SANJAY
