

## ACKNOWLEDGEMENT

First of all I pay my utmost and sincere gratitude to the Almighty for blessing me with courage and protecting me in every endeavor I have gone through.

Taking the opportunity I express my deepest heartfelt regard to my research guide, Dr. M. Sreedevi Xavier for her guidance and valuable inputs and suggestions in seeing this work through. Words of gratitude seem short for her who has been showering me with her academic insights, views, support and encouragement for a more valuable outcome. It is because of her enormous patience and endurance all through while rectifying the drafts which have resulted in the completion of this work with such perfection. Without her meritorious guidance the study would not have taken this form. I will always remain grateful to her for the trust, strength and affection delivered to me all through these years.

I wish to express my greatest regard to the Head of the Department, Prof. P.S. Choondawat, and to Prof. N. Rajaram, Dr. Ragini P. Shah and Mrs. Mandakini Jha, for their valuable cooperation.

With utmost regard I would like to thank all the people who have been supporting me all these time through. I thank my seniors Dr. Ch. Victoria Devi and Dr. Alok Kumar Singh for their support and encouragement. My acknowledgement would be incomplete without thanking my colleague Mr. Debranjana Hota who has always been ready for help and academic discussions. Thanking my dearest friend and colleague, Mary Bachaspatimayum, is not enough for the support she has given me. Her worthwhile suggestions and help while going through the manuscript are precious. I cannot forget my dear friends Vaidehi Navneet Sah and Mr. Sunil Gusain who have been emotionally present with me all this while. All my friends and juniors who have been with me through my thick and thin times are deeply remembered.

It would be ingratitude on my part not to mention a few who proffered a warm and helping hand and allowing me to stay in their houses during data collection. Mr. Chingtham Banikanta of Sekmai, Mr. Chingakham Palando Meitei of Andro, Mr. Nongmaithem Jhulon Singh of Kakching, with whose hospitality I was able to stay in all these particular areas and complete my data collection work. With profound respect, I

thank Mr. Bhupen Kumar and Smt. Hudrom Ongbi Gunabati Devi for guiding me to Kwakta and Thongjao areas. I thank Mr. Laishram Oken and all my friends especially Mr. Khwairakpam Ronald and Mr. Khwairakpam Naocha for helping me in providing the required information. With humble respect, I thank all the respondents for leniently sparing their valuable time for answering the gruelling and searching questions.

I am thankful to the non-teaching staffs of the Department, Mr. Rameshbhai Baria and Mr. Nileshbhai Dave who were ever present whenever I required any help in the Department. I also thank Ms. Indiraben Parmar for her every possible help in the Faculty.

My acknowledgement is never complete without the mention of my dearest parents to whom I am totally indebted. My every word of thanks remains petite for the unconditional love and affection they have showered on me. I express my innermost love to Ema, Pabung, my brothers Krishna Kumar, Rudra Kumar and Hosa for their immense support and motivation. I express my deepest affection for my sister-in-law Romita Devi, my sister Helena and all my Khaidem family members for always being there for me.
