

### List of Tables:

Table No	Particulars	Page No:
01	Table depicting Sex wise distribution of respondents	109
02	Table depicting Caste wise distribution of respondents	109
03	Table showing Marital Status wise distribution of the respondents	110
04	Table showing Age wise distribution of the respondents	110
05	Table showing Education wise distribution of the respondents	111
06	Table showing Occupation wise distribution of respondents	112
07	Table showing Roles position of the respondents with respect to household head	113
08	Table showing Residential status of the household in the community	113
09	Table showing type of house of the respondent	114
10	Table showing the facilities available at the household level of the respondents	115
11	Table showing type of family of the respondents	116
12	Table showing family size of the respondents	116
13	Table showing Gender wise distribution of the family members of the respondents	117
14	Table showing marital status of the family members of the respondents	117
15	Table showing educational level of the family members of the respondent	118
16	Table showing occupation of the family members of the respondents	119
17	Table showing migration status of the family members of the respondent	120
18	Table showing ability of the household for monthly savings	120
19	Table showing types of saving at the household level	121
20	Table showing perception of the respondent regarding economic status of the household as compared to other families in the community	122
21	Table showing perception of the respondent regarding economic status of the household	123
22	Table showing whether the household of the respondent takes debt/loans	124
23	Table showing the reasons for taking debt by the household of the respondent	124

24	Table showing the source of debt/loan by the household of the respondents	125
25	Table showing whether the household of the respondent is able to repay debt	126
26	Table showing Out Migration status of the household members of the respondents	126
<b>Section II</b>		
27	Table showing exposure of the household of the respondents to storm surge climate hazard	128
28	Table showing intensity experienced by the household of the respondents to storm surge climate hazard	128
29	Table showing exposure of the household of the respondents to coastal erosion climate hazard	129
30	Table showing intensity experienced by the household of the respondents to coastal erosion climate hazard	129
31	Table showing exposure of the household of the respondents to Cyclone climate hazard	130
32	Table showing intensity experienced by the household of the respondents to cyclone climate hazard	130
33	Table showing exposure of the household of the respondents to Flood climate hazard	131
34	Table showing intensity experienced by the household of the respondents of Flood climate hazard	131
35	Table showing exposure of the household of the respondents to Salinity climate hazard	132
36	Table showing intensity experienced by the household of the respondents to Salinity climate hazard	132
37	Table showing exposure of the household of the respondents to depletion of mangrove cover as climate hazard	133
38	Table showing intensity experienced by the household of the respondents to depletion of mangrove cover as climate hazard	133
<b>Section IV</b>		
39	Table showing source of Drinking water at the household level	138
40	Table showing source of Electricity at the household level	139
41	Table showing Health Care Services utilized at the household level	139
42	Table showing source of Communication utilized at the household level	140
43	Table showing source of Transportation utilized at the household level	141

44	Table showing Occupational resources utilized at the household level	142
45	Table showing source of Drinking water in times of stress at the household level	142
46	Table showing source of Electricity in times of stress at the household level	143
47	Table showing Shelter utilized in times of stress at the household level	144
48	Table showing source of Health Care Services in times of stress at the household level	145
49	Table showing source of Communication in times of stress at the household level	146
50	Table showing source Transportation in times of stress at the household level	147
51	Table showing source of Occupational resources in times of stress at the household level	148
<b>Section V</b>		
52	Table showing utilization of Coral Reefs as coastal and marine resources for fishing for household consumption	150
53	Table showing utilization of Coral Reefs as coastal and marine resources for fishing for Selling	150
54	Table showing utilization of mangroves as coastal and marine resources in form of wood for household	151
55	Table showing utilization of mangroves as coastal and marine resources in form of wood for cooking for household	151
56	Table showing utilization of mangroves as coastal and marine resources in form of wood for making coal for household	152
57	Table showing utilization of mangroves as coastal and marine resources for fishing for selling	152
<b>Section VI</b>		
58	Table showing fishing as a main source of livelihood for household use	154
59	Table showing Other marine life as a main source of livelihood for household use	154
60	Table showing income from Job as a main source of livelihood for household	155
61	Table showing Business as a main source of livelihood for household use	155
62	Table showing Pension as a main source of livelihood for household use	156
63	Table showing other sources as a main source of livelihood for household use	156
64	Table showing fishing as a main source of livelihood for business use	157
65	Table showing other marine life as a main source of livelihood for business use	157

66	Table showing Animal husbandry as a main source of livelihood for business use	158
67	Table showing Handicraft as a main source of livelihood for business use	158
68	Table showing Income from service as a main source of livelihood for business use	159
69	Table showing money from relatives as a main source of livelihood for business use	159
70	Table showing others as a main source of livelihood for business use	160
71	Table showing number and role of family members engaged in livelihood - Fishing	160
72	Table showing number and role of family members engaged in livelihood – Other marine life	162
73	Table showing number and role of family members engaged in livelihood – Handicraft	163
74	Table showing number and role of family members engaged in livelihood – Service sector	163
75	Table showing number and role of family members engaged in livelihood – Business	165
76	Table showing number and role of family members engaged in livelihood – others	166
77	Table showing number and role of family members engaged in livelihood – Seaman	167
<b>Section VII</b>		
78	Table showing frequency of cyclones witnessed by the households	169
79	Table showing sensitivity of the households towards impact of cyclones witnessed by the households	169
80	Table showing negative impact of cyclones witnessed by the households	170
81	Table showing difficulty in coping with impact of cyclones witnessed by the households	171
82	Table showing total vulnerability ration of cyclones witnessed by the households	171
83	Table showing frequency of coastal erosion witnessed by the households	173
84	Table showing sensitivity of the households to coastal erosion	173
85	Table showing Negative impact of coastal erosion on the households	174
86	Table showing difficulty in coping with impact of coastal erosion by the households	174
87	Table showing total vulnerability rating of coastal erosion as witnessed by the households	175

88	Table showing frequency of increase in sea level by the households	177
89	Table showing sensitivity to increase in sea level by the households	177
90	Table showing negative impact of increase in sea level on the households	178
91	Table showing difficulty in coping with impact of increase in sea level by the households	178
92	Table showing total rating of impact of increase in sea level as witnessed by the households	179
93	Table showing frequency of salty water in farms as witnessed by the households	180
94	Table showing sensitivity to salty water in farms by the households	181
95	Table showing negative impact of salty water in farms on the households	182
96	Table showing difficulty in coping due to salty water in farms by the households	182
97	Table showing total vulnerability rating to salty water in farms as witnessed by the households	183
98	Table showing frequency of salty water in wells by the households	184
99	Table showing sensitivity to salty water in wells by the households	185
100	Table showing negative impact of salty water in wells on the households	185
101	Table showing difficulty in coping with salty water in wells by the households	186
102	Table showing total vulnerability rating of salty water in wells as witnessed by the households	186
103	Table showing frequency of change in weather by the households	188
104	Table showing sensitivity to change in weather by the households	188
105	Table showing negative impact of change in weather on the households	189
106	Table showing difficulty in coping up with change in weather by the households	189
107	Table showing total vulnerability rating to change in weather as rated by the households	190
108	Table showing frequency of drought faced by the households	191
109	Table showing sensitivity of drought rated by the households	191
110	Table showing negative impact of drought on the households	192
111	Table showing difficulty in coping up with drought on the households	193

112	Table showing total vulnerability rating to drought as witnessed by the households	193
113	Table showing frequency of floods as rated by the households	194
114	Table showing sensitivity of floods as rated by the households	195
115	Table showing negative impact of floods as rated by the households	195
116	Table showing difficulty in coping with impact of floods as rated by the households	196
117	Table showing total vulnerability rating of impact of floods as rated by the households	196
118	Table showing frequency of sea water becoming hot as rated by the households	197
119	Table showing sensitivity to sea water becoming hot as rated by the households	198
120	Table showing negative impact of sea water becoming hot as rated by the households	198
121	Table showing difficulty in coping with impact of sea water becoming hot as rated by the households	199
122	Table showing total vulnerability rating of impact of sea water becoming hot as rated by the households	199
123	Table showing frequency of depletion of mangroves as rated by the households	200
124	Table showing negative impact of depletion of mangroves as rated by the households	201
125	Table showing depletion of mangroves as rated by the households	201
126	Table showing total vulnerability of depletion of mangroves as rated by the households	201
<b>Section VIII</b>		
127	Table showing perception of the household regarding the ability of the community to make community plans to deal with climate related events	206
128	Table showing perception of the household regarding the ability of the community to coordinate activities to respond quickly to the impacts of natural events	207
129	Table showing perception of the household regarding the ability of the community to reorganize to respond to new situation	208
130	Table showing perception of the household regarding the ability of the community institutions to support the members in need to reorganize to cope with new problems	209
131	Table showing perception of the household regarding the ability of the community members to work well with each other	210

132	Table showing perception of the household regarding the ability of the community to access outside support when needed	211
<b>Section IX</b>		
133	Table showing attitude of the households towards community leaders to successfully lead them through climate related events in the past	213
134	Table showing attitude of the households towards community leaders being interested in climate change issues and the impact on the community	214
135	Table showing attitude of the households towards community leaders who have knowledge and skills to effectively take charge of climate change adaptation	215
136	Table showing attitude of the households towards trust in community leaders to lead the community through climate change adaptation	216
137	Table showing attitude of the households towards ability of the leaders to inform them of national and regional climate change policy or initiatives	217
138	Table showing attitude of the households towards ability of the leaders to inform them from where to get climate related information	218
139	Table showing attitude of the households towards ability of the leaders to suggest what can the community people do to adapt to climate change	219
140	Table showing attitude of the households towards ability of the leaders to provide them with resources needed for climate change activities	220
141	Table showing attitude of the households towards ability of the leaders to encourage community members	221
142	Table showing attitude of the households towards their voices being heard in community planning for climate change adaptation	222
143	Table showing attitude of the households towards ability of the leaders to provide opportunity to participate in community level decision making	223
