

ACKNOWLEDGEMENTS

First and Foremost, I would like to express my sincere gratitude to my research guide **Prof. Rakesh Srivastava**, Ex. Head, Department of Statistics, The M. S. University of Baroda, for his insight, guidance, constant encouragement in every manner possible. I have always benefited from him useful comments, suggestions and constructive discussions. During my tenure as a doctoral student, I have learned so much from him that words would not be sufficient to express. I thank him for devoting enormous efforts and time to help me in research activities.

I am immensely thankful and wish to express my deep sense of gratitude to **Prof. K. Muralidharan**, Head of the Department for his co-operation during the research work.

I am so indebted to **my family**, and **my parents** for their constant support and encouragement throughout my research. Last, but not least, I am deeply grateful to my husband **Dr. Tejas Shah** and my daughter **Kavya**, without whose understanding, love and patience, I would not have been able to accomplish my research.

I'll never be able to forget the support and cooperation I received from the Director of my college, **Prof. Mahendra Sharma**, Pro. Vice Chancellor of Ganpat University and **CA Ujal Mehta**, centre coordinator of CMS, Ganpat University.

I am also very grateful for the assistance and valuable advice I received from **Dr. Vilpa Tanna**, my friends and people who have directly or indirectly helped me in accomplishment of my research.
