

Acknowledgement

"If I have seen farther than others, it is because I have stood on the shoulders of giants"

.....Isaac Newton referring to Galileo

I take this opportunity to express my deep sense of gratitude and respectful regards to Dr. Surjit Mukherjee, of Physics Department, Faculty of Science, The M.S. University of Baroda, for the guidance, admirable patience and constant inspiration. His constant encouragement and constructive suggestions have provided me an insight into the intricacies of the experimentation involved in this work. I am indebted to him for putting me into ease at work and affection which inspired me throughout the course.

I express my indebtedness to Dr. Sandeep S Ghugre of UGC-DAE Consortium for scientific research, Kolkata Centre, for initiating me into this particular field of work. His constant support and guidance in finalizing various aspects of this work is unforgettable. My special thanks are due to Dr. A.K. Sinha, Centre Director, UGC-DAE, CSR for providing the facilities and suggestions during my experimental days. I thank the UGC-DAE CSR, Kolkata Centre for the financial support given under the collaborative research scheme (CRS-074).

I express my indebtedness to Prof. C.F. Desai, Head, Physics Department, Faculty of Science, The M.S. University of Baroda for providing me the facilities during the course of these investigations. I express my regards to Prof. N. L. Singh and all other staff of the Physics Department for their cooperation.

I acknowledge with regards the unreserved inspiration and help received from Dr. Elena Gueorguieva, Physicist, iThemba LABS, Cape Town, South Africa for providing me the much needed data, her advices, suggestions and patience. I also wish to record the kind co-operation and help rendered by the Physicists Prof. Krish (Former Executive Director), Dr. Zablon Vilakazi (Director), Dr. Kobus Lawrie, Dr. Richard Newman of iThemba LABS, South Africa.

I wish to acknowledge with pleasure the help received from, Dr. Swapan Basu, Variable Energy Cyclotron Centre (VECC), Kolkata and all the participants and collaborators of The Indian National Gamma Array (INGA) at VECC, Kolkata.

It's a pleasure to acknowledge the cooperation and help from my colleagues & seniors, especially Somsundar, Krishichayan, Anagha, Sudatta, Rajesh who have taught me many aspects of Nuclear Physics and helped me during the initial days of my analysis, and have always stood by me providing the requisite cooperation, assistance and help wherever necessary. Hearty regards to Kaushik and Rajesh P.V for their co-operation and encouragement.

I owe my heartiest thanks to Dr. Surendra Babu, who have shown me the path to research, his help and constant inspiration.

Friends - a part of this works credit should be given to them for their ever being with me in times of high and despair. Among them my best - Sunil; Priya, Ruchita, Grishma, Neha, Rajesh, Gigi, Thomson, Sudip, Angshu, Indrajit need to be mentioned for the times spent and the things I share with them. Thanks to fellow colleagues Babu, Ankur, Devang, Manish, Sejal, Nandini, Dolly and all others.

I extend my innate feelings to my parents whose encouragement, love, affection brought me thus far in academics. Hearty wishes to Ammulu, Sri, Zia, Ani, my extended family, all my teachers, and persons who have influenced, inspired me through out.

Above all I thank the almighty for helping me to complete this work in the stipulated period.

Date: 18.07.08
