LIST OF FIGURES	3
LIST OF TABLES	5
CHAPTER 1	6
INTRODUCTION	6
GEOLOGICAL AND TECTONIC SETUP OF GUJARAT	9
PHYSIOGRAPHY OF GUJARAT	11
MAINLAND GUJARAT	11
SAURASHTRA	12
KACHCHH	12
SCOPE OF WORK	13
CHAPTER 2	19
PREVIOUS STUDIES	19
GEOLOGY AND STRUCTURE OF KACHCHH	19
MORPHOTECTONICS	23
PALEOSEISMOLOGY AND ACTIVE FAULT STUDIES	24
SEISMOLOGY	27
GROUND DEFORMATION STUDIES	29
CHAPTER 3	31
GEOLOGIC AND TECTONIC SETTING	31
TECTONIC SETUP	31
STRATIGRAPHY	34
Mesozoic rocks	36
Deccan Trap	42
Igneous Intrusions	44
Tertiary rocks	45
Quaternary	49
Rann of Kachchh	51
CHAPTER 4	55
STRUCTURE	55
INTRODUCTION	55
GENERAL DESCRIPTION OF UPLIFTS AND ASSOCIATED STRUCTURES	56
Mainland Uplift	57
Wagad uplift	59
Island Belt Uplift	68
FAULTS AND FAULT RELATED FOLDS	70
Kachchh Mainland Fault	70
Kharod Fault	73
Katrol Hill Fault	74
Fault-propagation folding	77
Out-of-syncline thrust	81
Opposite sense of relative displacement	85
CHAPTER 5	86
PALEOSEISMIC AND ACTIVE FAULT STUDIES	86
INTRODUCTION	86
BACK GROUND OF PALEOSEISMIC AND ACTIVE FAULT STUDIES IN KACHCHH	92
ACTIVE FAULT STUDIES ALONG KACHCHH MAINLAND FAULT	93
Trench investigation near Jhura– Trench T1	95
Stratigraphy of Trench-1	97
Identification of fault strands	98
Unconformities	99

Seismic events recognised in trench	100
Trench investigation near Khirsara village-T2	101
Stratigraphy of Trench-2	103
Quaternary deformation /Identification of fault strand	104
ACTIVE SYNCLINAL FOLDING	104
Alluvial terraces:	104
Paleochannel	105
Strath terraces	107
Drainage reversal:	108
Bedrock incision	109
CHAPTER 6	110
DISCUSSION	110
INTRODUCTION	110
FAULTS AND FOLDS	110
Origin of marginal flexures and domes	116
Fault-related folding	116
Discernable thrusting at Kakarwa	121
Slip deficit on subsurface fault	121
Growth of fault in segments	123
Out-of-syncline thrust	124
Fault-bend folding	126
ACTIVE TECTONIC STUDIES	128
Active Deformation of Palara Syncline	128
Hanging paleochannel	128
River terraces	129
Aggradation and incision	131
Bedrock incision	131
ACTIVE FAULT STUDIES ALONG KMF	131
Net-slip along Fault F1 in Jhura Trench considering deformation	132
Characteristic displacement along KMF	133
Variable slip model	135
Characteristic earthquake model	136
ACTIVE FAULTS OF KACHCHH	136
Branch fault of KMF	137
Segmented nature of KMF	141
Paleoearthquake magnitude along KMF:	144
Surface-rupture length (SLR) method	145
Maximum Displacement Method	146
CONCLUSIONS	147
REFERENCES	149
