

LIST OF FIGURES

FIGURE NO.		PAGE NO.
I.1	Location Map	5
II.1	Map of the Aravalli - Delhi belt showing distribution of types and zones of metamorphism.	12
III.1	Geological Map of the study area	22
V.1	ACF Diagram	87
V.2	AKF Diagram	88
V.3	Köhler Raaz Diagram for pelitic members of study area.	90
V.4	Köhler Raaz Diagram for pelitic members of Cooray (1965), Wynne-Edwards (1967).	91
V.5	A'FK Diagram	93
V.6	A'FM Diagram	95
V.7	Diagram showing plot of Na_2O Vs. K_2O .	97
V.8a	Variation diagram for pelitic members.	99
V.8b	Variation diagram for pelitic members.	100
V.8c	Variation diagram for calcareous members.	101
V.8d	Variation diagram for calcareous members.	102
VI.1	Summary of PT estimates for the metasedimentary granulites.	131
VI.2	Calculated temperature composition for continuous and discontinuous reactions.	132
VII.1	Effect of F_2 folding on L_1 lineations.	141

VII.2	Effect of F_3 folding on L_1 lineations.	142
VII.3	Effect of F_3 folding on L_2 lineations.	144
VII.4	Stereogram showing trend of F_1 fold axes.	146
VII.5	Structural Map of the study area.	147
VII.6	Map showing axial trends	150
VII.7	Successive stages of the development of folded folds in unsteady flow by a change in the direction of movement.	161
