

## CONTENTS

	Page No.
<b>Summary</b>	<b>I -VII</b>
<b>Chapter 1.</b> Introduction	1 - 33
<b>Chapter 2.</b> <i>Section 1</i> Synthesis and Characterisation of Antioxidants based on Hindered phenol and Hindered amines.	34-65
<i>Section 2</i> Synthesis of Antioxidants by the application of Wittig reaction.	66 - 80
<b>Chapter 3.</b> Antioxidants based on Hindered Phenol and Oxygen heterocyclics bridged by Chalcone, Pyrazoline and Phenyl pyrazoline.	81- 144
<b>Chapter 4.</b> <i>Section 1</i> Synthesis and Characterisation of Iraganox 1076 homologue – A Novel Observation.	145 - 176
<i>Section 2</i> Preparation and Reactions of 1-(3',5'-di-tert-butyl-4'- hydroxyphenyl)-2-bromoethanone.	177 - 196
<b>Chapter 5.</b> Hindered phenols as stabilisers for Polypropylene-copolymer.	197 - 224
