

LIST OF TABLES

<u>TABLE</u>	<u>TITLE</u>	<u>PAGE</u>
1.	Preliminary data of the fabrics 105
<u>TABLES FOR DYE I</u>		
2.	Data on relative transfer printing numbers of different fabrics at varying finish treatments.. 110
3.	Data on relative transfer printing numbers of different fabrics printed with varying content of the paste 115
4.	Data on relative transfer printing numbers of fabrics finished by acrylic emulsion having varying fiber content printed with varying contents in paste 121
5.	Data on relative transfer printing numbers of fabrics finished by polyvinyl acetate having varying fiber content printed with varying content in paste 126
6.	Data on relative transfer printing numbers of fabrics finished by polyvinyl alcohol having varying fiber content printed with varying contents of the paste 130
7.	Durability of the transfer printed samples to mild soap washing for dye I 135
<u>TABLES FOR DYE II</u>		
8.	Data on relative transfer printing numbers of different fabrics at varying finish treatments.. 137
9.	Data on relative transfer printing numbers of different fabrics printed with varying content of the paste 142
10.	Data on relative transfer printing numbers of fabrics finished by acrylic emulsion having varying fiber content printed with varying contents in paste 149
11.	Data on relative transfer printing numbers of fabrics finished by polyvinyl acetate having varying fiber content printed with varying content in paste 152

<u>TABLE</u>	<u>TITLE</u>	<u>PAGE</u>
12.	Data on relative transfer printing numbers of fabrics finished by polyvinyl alcohol having varying fiber content printed with varying contents of the paste	158
13.	Durability of the transfer printed samples to mild soap washing for dye II	161

TABLES FOR DYE III

14.	Data on relative transfer printing numbers of different fabrics at varying finish treatments..	164
15.	Data on relative transfer printing numbers of different fabrics printed with varying content of the paste	167
16.	Data on relative transfer printing numbers of fabrics finished by acrylic emulsion having varying fiber content printed with varying contents in paste	174
17.	Data on relative transfer printing numbers of fabrics finished by polyvinyl acetate having varying fiber content printed with varying content in paste	176
18.	Data on relative transfer printing numbers of fabrics finished by polyvinyl alcohol having varying fiber content printed with varying content of the paste	182
19.	Durability of transfer printed samples to mild soap washing for dye III	185

TABLES OF STATISTICAL ANALYSIS

20.	Statistical analysis of the relative transfer printing numbers of dye I for fabric A (100 percent cotton)	187
21.	Statistical analysis of the relative transfer printing numbers of dye I for fabric B (50:50 polyester:cotton)	188
22.	Statistical analysis of the relative transfer printing numbers of dye I for fabric C (67:33 polyester:cotton)	189

<u>TABLE</u>	<u>TITLE</u>	<u>PAGE</u>
23.	Statistical analysis of the relative transfer printing numbers of dye I for fabric D (100 percent polyester)	190
24.	Statistical analysis of the relative transfer printing numbers of dye II for fabric A (100 percent cotton)	191
25.	Statistical analysis of the relative transfer printing numbers of dye II for fabric B (50:50 polyester:cotton)	192
26.	Statistical analysis of the relative transfer printing numbers of dye II for fabric C (67:33 polyester:cotton)	193
27.	Statistical analysis of the relative transfer printing numbers of dye II for fabric D (100 percent polyester)	194
28.	Statistical analysis of the relative transfer printing numbers of dye III for fabric A (100 percent cotton)	195
29.	Statistical analysis of the relative transfer printing numbers of dye III for fabric B (50:50 polyester:cotton)	196
30.	Statistical analysis of the relative transfer printing numbers of dye III for fabric C (67:33 polyester:cotton)	197
31.	Statistical analysis of the relative transfer printing numbers of dye III for fabric D (100 percent polyester)	198
32.	Summary of F (calculated) values	200
