

List of Tables:

Table 1:	Chemical composition of calcined composites.....	30
Table 2:	Chemical composition of supported Nickel catalysts.....	82
Table 3:	Particle Size of NiO of Calcined Catalyst and of Ni(0) of Reduced & Stabilized Catalyst.....	125
Table 4:	Effect of reactions on molar ratios of H ₂ /CO, H ₂ /CO ₂ and H ₂ /CH ₄	152
Table 5:	Coke content and relative coking rates for various catalysts.....	177
Table 6:	Percentage of carbon deposited on the spent catalysts, its morphology, and the decay constants at 700°C.....	191
Table 7:	Particle size of Ni determined by HRTEM for reduced catalysts and spent ESR catalysts.....	193
Table 8:	Effect of reactions on stoichiometric molar ratios of H ₂ /CO, H ₂ /CH ₄ and XEtOH/XCO ₂ in EDR Reaction.....	222
