

ACKNOWLEDGEMENT

I am thankful to **Dr. P. C. Mankodi**, Reader in Zoology, for his kind guidance and valuable suggestions during this research work.

I am thankful to Prof. P. V. Patel, In-charge Head, Department of Zoology and Prof. A. V. Ramachandran and Prof. M. V. Asnani, former Heads of the department for providing me necessary facilities and permission to carry out this research work. I am highly thankful to Dr. K. D. Vachhrajani, Lecturer in Zoology, for his continuous support and fruitful discussions during this work.

I am also thankful to Mr. J. V. Sagar, Dr. Aditi Nanda, and Ms. Minal Vyas for their help during my practical work.

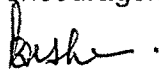

I owe my sincere thanks to my school management committee officials Shri J. V. Mehta (GM) and Shri P. K. Masare (AGM) of GNFC and Shri N. L. Bhatt, Registrar Bharuch Kendra of Bharatiya Vidya Bhavan, and Late Shri N. S. Vyas for their moral support.

I am grateful to Mr. Kenneth Christian and Dr. B. S. Deota of Department of Geology, The M. S. University of Baroda, Vadodara for taking keen interest in my research work and their encouragement.

I am very grateful to Dr. R. K. Sharma (CM) Central Laboratory GNFC Ltd. for extending laboratory facilities to complete my water quality analysis. I am also thankful to Mr. H. S. Thakker (OS) and Mr. Amit Kanodia (Computer teacher) for their help in computation and compilation of my thesis.

I extend my thanks to Mr. Shukhlal, fisherman, for providing boat for sampling and biodiversity data collection. I am thankful to Mahendra Chaudhary and Bharat Ninama, peon and laboratory assistant for assisting me in my field and laboratory work.

It is very difficult to express my gratitude to my family in few words. My parents were the guiding force behind this endeavor. This work would not have been completed without moral support and encouragement of my wife Lata and my both sons.

K. N. SHARMA
