Page No.

1. INTRODUCTION

1.1 The object	1
1.2 Synthetic ion exchange resins	2
1.3 Cinchona alkaloids	7
1.4 Ion exchange studies with cinchona alkaloids	11
1.5 Ultraviolet absorption spectra of cinchona alkaloids	28
1.6 Summary of the earlier work done in this laboratory	30

2. ULTRAVIOLET ABSORPTION STUDIES OF

CINCHONA ALKALOIDS

2.1 Introduction	35
2.2 Experimental	35
2.3 Nomenclature	36
2.4 Results	36
2.5 Discussion	51

3. EQUILIBRIUM STUDIES OF CINCHONA ALKALOID

SULFATES WITH SULFONIC ACID RESINS :

(A) EFFECT OF PARTICLE SIZE OF RESINS IN HYDROGEN FORM AND (B) STUDIES WITH RESINS IN AMMONIUM FORM

3.1 Introduction	52
3.2 Experimental	52
3.3 Nomenclature	55
3.4 Results	56
3.5 Discussion	66

4. <u>STUDIES ON THE UPTAKE OF CINCHONA ALKALOID</u>	
<u>BASES BY SULFONIC ACID CATION EXCHANGE</u>	
<u>RESINS FROM AQUEOUS ALIPHATIC ALCOHOLS</u>	
4.1 Introduction	71
4.2 Experimental	71
4.3 Nomenclature	72
4.4 Results	73
4.5 Discussion	81
5. <u>RATES OF EXCHANGE WITH CINCHONA</u>	
<u>ALKALOID SULFATES</u>	
5.1 Ion exchange rates	84
5.2 Exchange rates of cinchona alkaloid sulfates with resins	87
5.3 Results	90
5.4 Discussion	95
6. <u>COLUMN STUDIES WITH QUININE SULFATE</u>	
6.1 Introduction	99
6.2 Experimental	99
6.3 Nomenclature	99
6.4 Results	100
6.5 Discussion	108
7. <u>EXTRACTION OF THE ALKALOIDS FROM</u>	
<u>CINCHONA BARK, CINCHONA FEBRIFUGE</u>	
<u>AND TOTAQUINA</u>	
7.1 Introduction	110
7.2 Cinchona bark	110
7.3 Cinchona febrifuge	123
7.4 Totaquina	130
8. <u>SUMMARY</u>	139
<u>REFERENCES</u>	144
