First and foremost I am grateful to God Almighty for helping me to complete this project which was a journey through many trials, challenges and disruptions. I thank God for my research guide and mentor, Dr. Rajan Barrett, for whom my words are insufficient to acknowledge my indebtedness and gratefulness. If not for his patient guidance, direction and assistance, I would certainly not have reached where I am now. His profound knowledge, passion for perfection and hard work had been my constant inspiration. His abundant patience while dealing with my shortcomings as well as his encouragement and support will never be forgotten and my heartfelt gratitude will remain forever, for being there with his insightful suggestions and kind support.
