HUMAN RESOURCES DEVELOPMENT DEPARTMENT

Dear Shri

SURVEY OF EXECUTIVE POTENTIALITIES IN A BANK

One of the primary functions of human resources development in an organisation is to identify the talents and potentialities of managers and executives. Due to its importance, I am undertaking a study of "Appraisal of Executive Potentialities in a Bank" for my Ph.D. Degree. As a first step, I am collecting individual opinions about the qualities & potentialities required for successful managers & executives. In my Study, I have included Accountants, Branch Managers, Senior Managers, Development Managers, Regional Managers and Chief Managers.

You have been specially selected for this preliminary survey considering your experience and understanding. Your opinion combined with others included in this small survey would form the foundation for further exploration in the study.

Your opinion would be treated as confidential and will be used only for the study.

Your co-operation in this professional work will be highly appreciated.

With personal regards,

Yours Sincerely,

S.NISONKO
