LIST OF TABLES

| TABLE | | PAGE |
|---|---|---|
| IV-1 | Grade and sex-wise distribution of students included in the study | 80 |
| IV-2 | Brief description of the fourteen HSPQ personality factors | 84 |
| IV-3 | Reliability co-efficients of the attitude scale | 113 |
| IV-4 | Reliability co-efficients of the competence test | 127 |
| IV-5 | Intercorrelations among five parts of the competence test for three grade levels | 130 |
| V-1 | Means and standard deviations of scores on career maturity measures at three grades | 133 |
| V-2 | Means and standard deviation of scores on career maturity measures for boys at three grades | 134 |
| V-3 | Means and standard deviations of scores on career maturity measures for girls at three grades | 134 |
| V-4 | Two way (grade x sex ) analysis of variance with respect to scores on career maturity measures | 135 |
| V-5 | Significance of differences amongst pairs of means of the three grades: VIII, X & XII on career maturity measures | 137 |
| V-6 | Significance of differences amongst pairs of means of three grades: VIII, X & XII for boys and girls on career maturity measures | 144 |
| V-7 | Sex differences at three grade levels for career choice attitudes | 151 |
| V-8 | Sex differences at three grade levels for self appraisal | 153 |
| V-9 | Sex differences at three grade levels for occupational information | 154 |

| | | |
|---|---|---|
| V-10 | Sex differences at three grade levels on planning | 156 |
| V-11 | Correlations of measures of career maturity with socio-economic status at three grades for boys & girls | 165 |
| V-12 | Correlations of measures of career maturity with intelligence at three grades for boys and girls | 170 |
| V-13 | Correlations of measures of career maturity with level of vocational aspiration at three grades for boys and girls | 176 |
| V-14 | Correlations of measures of career maturity with participation in school activities at three grades for boys and girls | 180 |
| V-15 | Correlations of measures of career maturity with participation in out of school activities at three grades for boys and girls | 183 |
| V-16 | Correlations of measures of career maturity with fourteen personality factors at three grades for boys and girls | 189 |
| V-17 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with career choice attitudes for VIII grade boys | 211 |
| V-18 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with career choice attitudes for VIII grade girls | 211 |
| V-19 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with career choice attitudes for X grade boys | 215 |
| V-20 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with career choice attitudes for X grade girls | 215 |

| | | |
|---|---|---|
| V-21 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with career choice attitudes for XII grade boys | 217 |
| V-22 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with career choice attitudes of XII grade girls | 217 |
| V-23 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with self appraisal for VIII grade boys | 219 |
| V-24 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with self appraisal for VIII grade girls | 219 |
| V-25 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with self appraisal for X grade boys | 220 |
| V-26 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with self appraisal for X grade girls | 220 |
| V-27 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with self appraisal for XII grade boys | 222 |
| V-28 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with self appraisal for XII grade girls | 222 |
| V-29 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with occupational information for VIII grade boys | 224 |
| V-30 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with occupational information for VIII grade girls | 224 |
| V-31 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with occupational information for X grade boys | 226 |

| | | |
|---|---|---|
| V-32 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with occupational information for X grade girls | 226 |
| V-33 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with occupational information for XII grade boys | 228 |
| V-34 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with goal selection for VIII grade boys | 230 |
| V-35 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with goal selection for VIII grade girls | 230 |
| V-36 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with goal selection for X grade boys | 232 |
| V-37 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with goal selection for X grade girls | 232 |
| V-38 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with goal selection for XII grade boys | 234 |
| V-39 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with goal selection for XII grade girls | 234 |
| V-40 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with planning for VIII grade boys | 236 |
| V-41 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with planning for VIII grade girls | 236 |
| V-42 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with planning for X grade boys | 237 |

| | | |
|---|---|---|
| V-43 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with planning for X grade girls | 237 |
| V-44 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with planning for XII grade boys | 239 |
| V-45 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with planning for XII grade girls | 239 |
| V-46 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with problem-solving for VIII grade boys | 241 |
| V-47 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with problem-solving for VIII grade girls | 241 |
| V-48 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with problem-solving for X grade boys | 242 |
| V-49 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with problem-solving for X grade girls | 242 |
| V-50 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with problem-solving for XII grade boys | 243 |
| V-51 | Regression equations using the combination of SES, INT, LVA, PISA, PIOSA and Personality for measures of career maturity of VIII grade boys | 246 |
| V-52 | Regression equations using the combination of SES, INT, LVA, PISA, PIOSA and Personality for measures of career maturity of VIII grade girls | 248 |
| V-53 | Regression equations using the combination of SES, INT, LVA, PISA, PIOSA and Personality for measures of career maturity of X grade boys | 250 |

V-54 Regression equations using the combination of SES, INT, LVA, PISA, PIOSA and Personality for measures of career maturity of X grade girls 252

V-55 Regression equation using the combination of SES, INT, LVA, PISA, PIOSA and Personality for measures of career maturity of XII grade boys 253

V-56 Regression equations using the combination of SES, INT, LVA, PISA, PIOSA and Personality for measures of career maturity of XII grade girls 255
