Finally and most significantly I thank my loving father and younger sister. They were not only supportive but were present at time of turbulence. My younger sister Ms. Alka Arora needs a special mention. She not only helped me in solving statistical problems but checked and rechecked with great patience and perservance. Her optimistic perspective and faith in me helped in covering such a distance. My dear father Mr. Narendra Arora not only helped me in every possible way. His dream of getting a doctorate is finally accomplished. I thank you both once again.

I dedicate my work to the Lotus feet of my beloved mother who is no more to see that I have achieved what she had dreamt for. Her blessings are always there for me.

The help provided by Saumyas Computers, Sayajigunj, is commendable. His working long hours and his untiring efforts is gratefully acknowledged.
