CONTENTS

CHAPTER 1: INTRODUCTION

1.0 Introduction	1
1.1 History of learning disability	2
1.2 Theories and models of language development	3
1.3 Early language development and associated Implications	8
1.4 Indices of children's early language development.	9
1.4.1 Stages of early language development	9
1.4.2 Indicators of early language development	11
1.4.3 Normal reading development	12
1.4.4 Reading comprehension	13
1.5 Major components of oral language	13
1.5.1 Phonology	13
1.5.2 Morphology	14
1.5.3 Vocabulary	16
1.6 Factors affecting learning disability	17
1.6.1 Constitutional aspect of learning disability	17
1.6.2 Aspects of phonological processing	19
1.6.3 Phonological awareness and its role in children at families at risk of	•
learning disability	20
1.6.4 Poor learners and normal learners	21
1.6.5 Naming deficit and speed deficit and its role in learning disability	22
1.6.6 Tip of the tongue and its relationship with learning disability	24
1.6.7 Visual spatial abilities and learning disability	26
1.7 Implications of learning disability	28
1.7.1 Psychosocial problems	28
1.7.2 Later problem due to learning disability	28
1.8 Theories of Dyslexia	29
1.8.1 Traditional theories of dyslexia	29
1.8.2 The modern theories of dyslexia	30
1.9 Methods used to identify learning disability	34
1.9.1 Need for early identification of learning disability	34
1.9.2 Strategies for identification in preschool areas	35
1.9.3 Preschool programs for children with learning disability	36
1.10 Intervention for learning disability	37
1.10.1 Intervention through teaching	38
1.10.2 Medical intervention	38
1.10.3 Psychosocial intervention	39
1.10.4 Behavioral intervention	39
1.10.5 Models for Intervention	39
1.10.6 Developmental Orientation as intervention	41
1.10.7 Emerging research questions	42

1.11 Objectives of the study	43
1.12 Hypothesis of the study	43
CHAPTER 2: METHODOLOGY I	
2.0 Phase I	45
2.1 Development of the tool	45
2.1.1 Assessment and review of the existing measures to identify learning disability	45
2.1.1.1 The Stanford Binet Intelligence scale fourth edition	45
2.1.1.2 WISC (Indian adaptation)	48
2.1.1.3 Comprehensive test of non verbal intelligence (C-TONI)	51
2.1.1.4 Comprehensive test of phonological processing (C-TOPP)	54
2.1.1.5 Test of phonological awareness (TOPAS)	56
2.1.1.6 Lindamood Auditory conceptualization test(LAC-3)	57
2.1.1.7 Nimhans index of SLD test (NIMHANS-SLD)	59
2.2 Item development	60
2.2.1 Phonemic decoding skills	60
2.2.2 Auditory processing skills	62
2.2.3 Visual spatial motor skills	63
2.2.4 Attention	65
2.3 Dimensions of the newly developed tool (including the adaptation and	
modification)	65
2.3.1 Attention and concentration	66
2.3.2 Visual discrimination	66
2.3.3 Spatial orientation	67
2.3.4 Left and right recognition	68
2.3.5 Top and bottom recognition	68
2.3.6 Visual organization	69
2.3.7 Visual motor skills	70
2.3.8 Visual memory	71
2.3.9 Auditory discrimination	71
2.3.10 Auditory memory	72
2.3.11 Receptive language	72
2.3.12 Expressive language	73
2.3.13 Picture sequence	73
2.3.14 Story sequence	74
2.3.15 Literacy readiness	74
2.3.16 Phonemic awareness	75
2.3.17 Rhyming words	76
2.3.18 Blending	76
2.3.19 Rapid naming objects	77

CHAPTER 3: METHODOLOGY II

3.0 Phase II	78
3.1 Selection of sample and pilot study	78
3.1.1 Developmental measures	78
3.1.2 Sample	79
3.2 Phase III Modification of the tool and administration of the tool	81
3.3 Phase IV Administering the NIMHANS specific learning disability Index	82
3.4 Phase V Standardization of the developed tool	83
CHAPTER 4: RELIABILITY, VALIDITY AND	
DISCRIMINANT ANALYSIS	
4.0 Introduction	84
4.1 Reliability	84
4.1.1 Reliability analysis –scale (alpha)	86
4.2 Validity	88
4.2.1 Content validity	89
4.2.2 Correlation of researcher's test and teacher's rating scale	90
4.2.3 Predictive validity	92
4.2.4 Correlation researcher's test and N IMHANS SLD scale	93
4.3 Profile of children with and without learning difficulty by the researcher's Test	95
4.4 Profile graph	96
4.5 Analysis of scores of children with and without learning difficulty by the researcher's test	97
4.6 Analysis of scores of children with learning difficulty by the researcher's	71
test and children with learning difficulty by the NIMHANS test	98
4.7 Discriminant analysis	99
4.7.1 Box's test of equality of covariance matrices	102
4.7.2 Summary of canonical discriminant functions	102
4.7.3 Separate-groups graphs	105
4.8 Discriminant report	107
CHAPTER 5: NORMS	
5.0 Introduction	108
5.1 Age norms	108
5.1.1 Age norm for color cancellation test	109
5.1.2 Age norm for visual discrimination test 1	111
5.1.3 Age norm for visual discrimination test 2	113
5.1.4 Age norm for spatial orientation test 1	115
5.1.5 Age norm for spatial orientation test 2	117
5.1.6 Age norm for spatial orientation test 3	119

5.1.7 Age norm for directionality (left and right) test	121
5.1.8 Age norm for top and bottom test	123
5.1.9 Age norm for test of proximity	125
5.1.10 Age norm for test of similarity	127
5.1.11 Age norm for test of closure	129
5.1.12 Age norm for test of synthesis and analysis	131
5.1.13 Age norm for visual motor skill test 1	133
5.1.14 Age norm for visual motor skill test 2	135
5.1.15 Age norm for visual motor skill test 3	137
5.1.16 Age norm for visual memory test	139
5.1.17 Age norm for auditory discrimination test	141
5.1.18 Age norm for auditory memory test	143
5.1.19 Age norm for receptive language test	145
5.1.20 Age norm for verbal expressive language test	147
5.1.21 Age norm for picture sequencing test	149
5.1.22 Age norm for story sequencing test	151
5.1.23 Age norm for literacy readiness test	153
5.1.24 Age norm for phonemic awareness test	155
5.1.25 Age norm for letter and beginning sound test	157
5.1.26 Age norm for letter and phonemic match test	159
5.1.27 Age norm for rhyming test	161
5.1.28 Age norm for blending 1 test	163
5.1 29 Age norm for blending 2 test	165
5.1.30 Age norm for rapid naming object test	167
5.2 Percentile norms	169
5.2.1 Percentile norm for color cancellation test	169
5.2.2 Percentile norm for visual discrimination test 1	171
5.2.3 Percentile norm for visual discrimination test 2	172
5.2.4 Percentile norm for spatial orientation test 1	173
5.2.5 Percentile norm for spatial orientation test 2	174
5.2.6 Percentile norm for spatial orientation test 3	175
5.2.7 Percentile norm for directionality (left and right) test	176
5.2.8 Percentile norm for top and bottom test	177
5.2.9 Percentile norm for test of proximity	178
5.2.10 Percentile norm for test of similarity	179
5.2.11 Percentile norm for test of closure	180
5.2.12 Percentile norm for test of synthesis and analysis	181
5.2.13 Percentile norm for visual motor skill test 1	182
5.2.14 Percentile norm for visual motor skill test 2	183
5.2.15 Percentile norm for visual motor skill test 3	184
5.2.16 Percentile norm for visual memory test	185
5.2.17 Percentile norm for auditory memory test	186
5.2.18 Percentile norm for auditory discrimination test	187
5.2.19 Percentile norm for receptive language test	188

5.2.20 Percentile norm for verbal expressive language test	189
5.2.21 Percentile norm for picture sequencing test	190
5.2.22 Percentile norm for story sequencing test	191
5.2.23 Percentile norm for literacy readiness test	192
5.2.24 Percentile norm for phonemic awareness test	193
5.2.25 Percentile norm for letter and beginning sound test	194
5.2.26 Percentile norm for letter and phonemic match test	195
5.2.27 Percentile norm for rhyming test	196
5.2.28 Percentile norm for blending 1 test	197
5.2 29 Percentile norm for blending 2 test	198
5.2.30 Percentile norm for rapid naming object test	199
CHAPTRER 6: MANUAL	
6.1 TESTS	200
6.1.1 Attention and concentration test	200
6.1.2 Visual discrimination test 1	200
6.1.3 Visual discrimination test 2	201
6.1.4 Spatial orientation test 1	202
6.1.5 Spatial orientation test 2	203
6.1.6 Spatial orientation test 3	203
6.1.7 Left and right recognition tests	204
6.1.8 Top and bottom recognition test	205
6.1.9 Test of proximity	207
6.1.10 Test of similarity	208
6.1.11 Test of closure	208
6.1.12 Synthesis and analysis	209
6.1.13 Visual motor skills test I	210
6.1.14 Visual motor skills test II	211
6.1.15 Visual motor skills test III	211
6.1.16 Visual memory test	212
6.1.17 Auditory discrimination test	213
6.1.18 Auditory memory test	213
6.1.19 Receptive language test	214
6.1.20 Verbal language expression test	213
6.1.21 Picture sequence test	215
6.1.22 Story sequence test	215
6.1.23 Literacy readiness test	216
6.1.24 Phonemic awareness test I	216
6.1.25 Phonemic awareness test II	217
6.1.26 Phonemic awareness test III and letter identification	218
6.1.27 Rhyming	218
6.1.28 Blending I test	219
6.1.29 Blending II test	219

6.1.30 Rapid naming object test	220
6.2 Classification to identify the degree of learning difficulty in 4-5 year old children	221
CHAPTER VII : DISCUSSION	
7.0 Introduction	223
7.1 Standardization of the constructed measure	224
7.2 Validation of the constructed measure	226
7.2.1 Content validity	226
7.2.2 Predictive validity	226
7.2.3 Discriminant validity	226
7.3 Difference between the profile of children with and without learning disability	227
7.4 Difference in the test scores of children with learning difficulty and children	221
without learning difficulty	227
7.5 Classifiction of children using the potential discriminating ability of the	
constructed measure further way to validation.	228
7.6 Limitations	228
7.7 Implications	229
7.8 Directions and suggestions for future research	230
7.9 Conclusion	231
