FUTURE PLAN OF UNIVERSITY STUDENTSGuide :

Professor M.S. Yadav

Investigator:

N. Pradhan

Dear Friend,

A research project has been undertaken by the investigator in this University to study a few aspects of students life viz., academic performance and job-placement. These will be seen in relation to the socio-economic background, academic life and future plan of the students. For this purpose certain information is required from the University students. I am approaching you as a student, to get the information about your academic life in this University and about your future plan i.e., what you want to do after the completion of your present course of study.

The questionnaire in your hand is intended to collect information about the academic life and future plan of university students. There are two parts - I & II in the questionnaire which contains items about the academic life and future plan respectively. In part-I probable answers to every items have been listed below them. While answering these items please remember that :

- i. You have to select only one answer which is true of you out of the listed answers.
- ii. In some items you may find that more than one answer may be true of you but select only one answer which you think as most applicable to you.
- iii. Put a tick mark(✓) by the side of your selected answer in each item.
- iv. If you find the listed answers inadequate for you in any item, please write your answer below that item.

- v. If you find that any item is not applicable to you please write NA (not applicable) by the side of that item.
- vi. Do not leave any item unanswered.

For answering the items in part-II, you have to put a tick mark (✓) in some of the items and in certain others you have to write your answers in the blank space below the item.

For making this study meaningful it is important that accurate information about the academic life and future plan of university students is needed. May I request you to give relevant information about you freely and frankly. I assure you that the information given will be used for research purpose only and strict confidentiality will be maintained about it.

Now you please proceed to answer the items without skipping any item.
