

Table of Contents

CHAPTER: I

INTRODUCTION _____	1
1.1 Background _____	1
1.2 The Concept: Urban, urbanization and urban Sprawl _____	2
1.3 Indian Context: _____	5
1.4 Objective _____	10
1.5 Data Set and Methodology: _____	11
1.6 Data sources _____	11
1.7 Approach of study _____	12
1.8 Outcome _____	15
1.9 Outline of Chapters _____	15
Summary _____	20

CHAPTER: II

REGIONAL SETUP: PHYSICAL AND SOCIO-ECONOMIC _____	21
2.1 Introduction _____	21
2.2 Physical Aspect _____	22
2.3 Industrial economy _____	32
2.4 Special Economic Zone _____	33
2.5 Connectivity and Communication _____	33
2.6 Demography _____	34
2.7 Baroda: Through the Ages _____	36
2.8 Topography, Natural Drainage and water Bodies _____	40
2.9 Demographic Dynamics _____	40

Conclusion _____	46
------------------	----

CHAPTER: III

LANDUSE LAND COVER (LULC) CHANGE DYNAMICS _____	47
3.1 Overview _____	47
3.2 Land Use/Land Cover Studies Using Remote Sensing and GIS Techniques _____	48
3.3 Land Use Change Dynamics in Vadodara Urban Area _____	53
3.4 Land use change analysis _____	58
3.5 Analysis of land use change 1978-2011 _____	68
3.6 Urban sprawl analysis _____	72
3.7 The longitudinal expanse Scenario of the Vadodara city _____	74
3.8 Land use change analysis by Supervised Classification _____	74
3.9 Accuracy Assessment: _____	84
3.10 Analysis of land use Change 1978-2011 _____	85
3.11 Digital Image processing Technique: Principal Component Analysis (PCA) _____	87
3.12 Results and Discussion _____	92
3.13 Digital Change Detection Techniques using remotely sensed data urban mapping based on a Combined Spectral Spatial Methodology. _____	102
3.14 Land Surface Temperature _____	114
3.15 Discussion _____	118
Conclusion _____	120

CHAPTER: IV

URBAN LANDSCAPE ANALYSIS USING SPATIAL MATRICES _____	120
4.1 Introduction _____	121
4.2 Materials _____	124
4.3 Methodology _____	124
4.4 Analysis and Results _____	128

4.5 Landscape Metrics in Land-Use Policy and Planning	136
Conclusion	138

CHAPTER: V

CELLULAR AUTOMATA MODELLING: PREDICTING FUTURE GROWTH	138
5.1 Introduction	139
5.2 CA Model for Urban Growth	140
5.3 Limits and Strengths of CA	144
5.4 Methodology	148
Conclusion	157

Chapter: VI

CONCLUSION AND RECOMMENDATIONS	158
6.1 Future Prospects of the study	164
